Dear Shareholders and Friends of Iviewit,

Today Iviewit's worst fears were realized when the United States Patent and Trademark Office (USPTO) contacted me regarding a certain provisional patent application in Mr. Brian Utley's name that we are supposed to have as the possession of Iviewit. I have attached the correspondence from the USPTO, which basically states that since neither Iviewit nor myself are listed on such applications we have no rights, title or interest in the patent application. Therefore, the USPTO cannot disclose any information regarding the application to us. I am astounded that our counsel Foley & Lardner who filed the application for Utley and Blakely Sokoloff Zafman and Taylor have never told us of this issue and never reported this to any authorities. In fact they made it part of the Company portfolio.

3/23/2004

More disturbing is that this patent application has been listed on all of our portfolios (I have attached an excerpt from our most recent portfolio) prepared by the law firms Foley and Lardner and distributed to shareholders and investors as property of Iviewit. I am uncertain which application of Utley's this is ("Zoom & Pan Imaging on a Digital Camera" or "Zoom & Pan Imaging Design Tool") but either way it is not our property as represented on the portfolios. There has never been assignment by Utley or any of the law firms to the Company. I am saddened to report this loss to all of you but this is the case. There are several other patents Utley has found his way onto and we are also attempting to correct those. I am not sure what crimes this constitutes but I am checking with counsel as to our remedies.

As I have stated prior, Mr. Utley and Mr. William Dick, Esq. of Foley and Lardner have had similar patent problems in the past, which led to the loss of a business Utley ran for another South Florida businessman. Chris Wheeler our attorney from Proskauer Rose had set a company up for Utley, in which Dick and Utley wrote patents into, patents that related to Mr. Utley's employment as President of a lawnmower company Diamond Turf Equipment. The patent applications were for lawnmower stuff and Utley would not assign them to his employer when he was caught, he was fired with cause (opposite of what the resume submitted to all of you stated) and the company was forced to close, the owner taking a three million dollar loss.

I have been working with the USPTO who is looking into these matters and a team of their agents to attempt to attempt correct everything so that your investment may one day inure benefits to you, not Utley et al. I have found out that several patents we thought were assigned to the Company and its investors by our attorneys also have never been completed despite what we have been told. I will keep everyone posted as we find out more. Finally, I have attached an inventor change form, one of several that we have filed with the USPTO to correct this Utley insertion and deletion of Zakirul and Jude and inventors and it is signed by Stephen Warner of Crossbow Ventures who has recently been very helpful in his efforts to help the Company.

I truly am sorry for any misleading information that was distributed by these firms and it was no fault of the Companies (except in regards to Utley et al.) as we too were misrepresented. My heart nevertheless is truly broken with this news for all concerned.

Thank you,

These arrowed patents are not property of Iviewit as this Foley docket claims. It will now take an act of Congress for Iviewit to find out whose they are while the patent office investigates.

Utley patents with arrows

This portfolio was prepared and submitted by William Dick for the Virginia Bar and further corresponds to the one prepared by Foley and Lardner after Utley was found with two sets of patent books. Prior, Utley only patents were not in any records. Further it is wrong to list assets like 341 which are not the property of the Company on a patent portfolio that is distributed to shareholders and investors.

Dear Shareholders and Friends of Iviewit,

By the by, to really make one sick, I just checked and Foley and Lardner billed us for this patent they list as a Company asset, that has never been an asset of the Company. In fact, the only reason they listed this patent in the first place is when we found Utley's second set of "cooked" patents books that we were unaware of and they were forced to reconcile for the set we found with Utley's name as an inventor. The Company also paid former counsel Blakely Sokoloff Zafman and Taylor to review the portfolio when we discovered Utley's books to audit the portfolio before distributing it to more investors and they never informed us of this either and billed us for the audit, recently they have lost all of our original patent documents from all prior counsel.

Also, I sent all of you an email a few minutes ago and noticed that the from and subject field somehow got truncated, I have been having some problems with my outlook mail, so if you did not see it or deleted it, feel free to call me.
