

**HAND NOTES OF MR. JOAO IN FILIPECK MEETING AT RESPONDENT S
OFFICE**

Proskauer 21st Floor

Steve Filipeck - Fish + Richardson

9/20/99

32mm → Wide angle lenses

image cameras

take out all specific software & hardware

magnification vs zooming

* Scan directly from the film w/ enlarger

JPEG file is always compressed

difference is that

if lowest compression is introduced virtually no

artifacts - as compression - you narrow

color compression - lose definition

* put in more detail on how the process works

#7 Video - straight through live connection to camera through capture device & onto the web

** When you take/process a live capture or capture from a record medium & process it, you may take it or the processed & prepared form on a computer storage medium which is streamable process & stored in deliverable form.

** Computer stores the processed videos & stores it.

p.1

↳ Processes defined at site level
based on tools - everything we use is
public domain
parameters are of such a nature - little
if any + claim as patentable.

↳ Breached Confidentiality Agreement
↳ several steps had to go through to arrive at
side rider b/c integrated into Dazzy card
& Real player.

↳

1st patents pending have value

Bit 4

2026

2nd. Lead of 2 - complexity
• Misapprop of trade secrets
• establish a solid base of
original claims.
show when where + how process
created

↳ process currently being employed in
public domain already
Capture + encode
• Qui • encode

HAND NOTES OF MR. WHEELER IN FILIPECK MEETING AT RESPONDENT S OFFICE

Notes
Meeting of Providence in NY

Ray + Bryan met at Tilipich -
copy of non-disclosure coming

Document 4.1
+ Document 1

5 + 6 are extensions -

Steve - "my concerns, issues" - very
uncomfortable with what I have read -

Bryan leaves

Ray says walked to train + no issues

Bryan calls Chris H. -

"inquiry OK"

"on video side - could not give
response to video question"

"did not feel comfortable with video -
- couldn't explain how it worked -
Steve taken aback by question -
they asked - "what is your view about
quality of video + how it works"
didn't get into how it works -

that is important and needs to be covered -

video involving - only recently -> document 7 is
not filed -> very important that we complete -

Wids.

- old account didn't address -
- no attacks -
- they have investment in video - the new
- the same - we had it -

raise level of debate & motivation -

~~this is~~

high demand →

not as easy to explain how it works -

Video → more subject to attack

Ours is not related to compression techniques -

If inquiry case we return to 1st step -
→ we do not do that with video -

- Video side is more opaque -

Royalty free →
