Re: LETTER OF LIABILITIES AND NOTICE OF FILED ALLEGATIONS CITING FRAUD UPON THE UNITED STATES PATENT & TRADEMARK OFFICE AND FRAUD AGAINST IVIEWIT HOLDINGS, INC. AND ITS SUBSIDIARIES, AFFILIATES, RELATED COMPANIES, AND RESPECTIVE SUCCESSORS AND ASSIGNS HEREINAFTER REFERRED TO AS (“THE COMPANY” OR “IVIEWIT”) BY SOME FORMER OFFICERS, DIRECTORS, ADVISORY BOARD MEMBERS & OUTSIDE PROFESSIONALS (“RESPONSIBLE PARTIES”).

Dear Sirs:

By way of introduction, I am President (Acting) of the Company, and am writing together with the help of P. Stephen Lamont, CEO (Acting), to advise you of liabilities resulting from circumstances I shall generally outline below. Moreover, outside counsel has not reviewed the contents of this letter, nor has outside counsel reviewed any of the documentation described herein.

I. PATENTS PENDING – ASSIGNMENTS

It has come to the attention of the Company, while investigating the trail of patent assignments in conjunction with the United States Patent and Trademark Office (“USPTO”), that many critical patent applications are not assigned to Iviewit Holdings, Inc., formerly known as (“fka”), Uview.com, Inc. as directed by the Responsible Parties and further represented by Non-Responsible Parties (individuals that the Company has no evidence at this time implicating them in any wrongdoings) to shareholders and other third parties. Initially, the patents were not assigned at all and then through various assignment documents had been assigned improperly by Responsible Parties into companies such as, Iviewit Technologies, Inc., Iviewit.com, Inc. and some wholly unassigned in what appears to be an attempt to fraud the shareholders. This information is remarkably different than what Responsible Parties have represented.

What is more disturbing is that our most recent counsel, Blakely Sokoloff Zafman & Taylor LLP (“BSZT”), has failed to list Alpine or Iviewit Technologies, Inc. as assignee

on our Intellectual Property dockets that we have been using for shareholders and investors as recently as November of 2003. Furthermore, and we are still awaiting information from the USPTO and foreign patent offices as to the exact information on all patents, yet from what we already have the assignment trail is fraught with misrepresentation and inconsistencies that have direct impact on shareholder holdings. There appears to be many previous assignments done by Proskauer Rose LLP ("PR") and Meltzer, Lippe, Goldstein, Wolf & Schlissel, P.C. ("MLGS") attorneys Kenneth Rubenstein ("Rubenstein") directing Raymond Joao ("Joao") or Foley Lardner LLP ("FL") attorneys William Dick ("Dick") directing subordinate attorneys Douglas Boehm ("Boehm") and Steven Becker ("Becker") whereby either Iviewit Technologies, Inc. (fka) Iviewit Holdings, Inc., or I.C., Inc. (fka) Iviewit.com, Inc. and other entities were that were knowingly and willfully assigned the patents in diametric opposition to directives of the Board of Directors, and in some instances no assignments were made at all.

Furthermore, although we do not have all the information on all the patents yet, it has been represented by the patent office that on a patent application the Company had never authorized, applied for by Dick, who directed his subordinates Boehm and Becker of Foley to file on behalf of Brain Utley ("Utley"), that the Company may have absolutely no rights, title or interest in the application. Due to this lack of ownership interest by the Company in the patent application, the Company is currently unable to ascertain any information from the USPTO at all regarding this application. This application has been listed as an asset of the Company since September of 2000 and to find that it was not the Company's was quite a shock considering that both Foley & BSZT have consistently listed it as an asset of the Company.

Finally, concerning assignments, it is entirely unclear that if the inventors are not properly listed, as will be discussed in greater detail below, the shareholders may have invalid or only partial interests in these patents and the assignees may also hold invalid or partial assignments to the rights, titles and interests of the patents. In response to this issue and the fact that many of the patents, knowingly and willfully, have the wrong inventors listed by Responsible Parties or missing the true and correct inventors entirely, Iviewit has filed in conjunction with Stephen Warner, Chairman & Co-Founder, of Crossbow Ventures (who maintains the single largest investment interest in Iviewit), a joint complaint with the Commissioner of Patents and Trademarks claiming alleged **FRAUD UPON THE UNITED STATES PATENT AND TRADEMARK OFFICE**

and thereby **FRAUD UPON THE SHAREHOLDERS OF IVIEWIT** by the Responsible Parties involved in these transactions. Responsible Parties are deemed so, for their part in any of transactions that have led to the problems currently being confronted by Iviewit management and shareholders. The alleged claim of fraud must be evaluated by the USPTO, if changes in inventorship and assignment are to be acknowledged and the rights, titles and interests in the patents turned back over to the proper inventors and assignees and ultimately the shareholders. EXHIBIT ("A"). Other Officers, Directors, Advisory Board Members and Outside Professionals who were not responsible to the best of the Company's knowledge at this time in these transactions, or had no involvement in the malfeasances that the Company has alleged, are termed "Not Responsible Parties" for purposes of this letter.

II. INCORPORATION RECORDS

When reviewing the trail of how patents applications were assigned to wholly owned, partly owned, related, affiliated companies, or, perhaps, entities of which the Company has no ownership position at all or were not assigned at all, leaving no doubt that the inventions have not properly been assigned, all of this authorized by the Responsible Parties, the Company finds the corporation books that had been maintained by PR, missing, in some instances, entire corporate books for some entities, entire stock ledgers, board meeting notes, stock certificate stubs, and entire stock certificates and in complete disarray. PR later claims to have transferred the corporate books in an unauthorized transfer, to a non-officer of the Company, William Kasser ("Kasser"), who later tried to demand \$250,000 of ransom for their return until confronted by legal counsel.

Moreover, upon information and belief, there was one or more Companies incorporated by the Responsible Parties without authorization of the Not Responsible Parties, said company formed by PR and Utley, former President and Chief Operating Officer, under the name of Iviewit Holdings, Inc., which held this name for less than a month and then changed its name to Iviewit Technologies, Inc. Simultaneously, one minute after Iviewit Holdings, Inc. changed its name to Iviewit Technologies, Inc., the company with the majority of shareholders Uview.com, Inc. changed its name to Iviewit Holdings, Inc. and in the confusion, it appears that several key patents were assigned by Utley into Iviewit Technologies, Inc. (fka) Iviewit Holdings, Inc. The assignments were made into this Company with a minority of shareholders (including PR) when they were supposed to be

transferred into Iviewit Holdings, Inc. (fka) Uview.com, Inc., with the majority of shareholders interests. In this one minute of complex name changes, using exactly similar names, it appears that patents were switched to a company that has questionable ownership and may have no interests at all held by the shareholders of Iviewit Holdings, Inc. (fka) Uview.com, Inc. EXHIBIT ("B").

In regard to Iviewit Technologies, Inc. (fka) Iviewit Holdings, Inc. presently, PR is one of the shareholders but it is entirely unclear if the present day Iviewit Holdings, Inc. (fka) Uview.com Inc., with the majority of shareholders possesses any share ownership in Iviewit Technologies (fka) Iviewit Holdings, Inc., and, again, Iviewit Technologies (fka) Iviewit Holdings, Inc. happens to be the assignee under several of the Company's critical patent applications with Utley listed as an inventor in some instances. In reviewing an incomplete audit whereby after ten months of work Arthur Andersen & Company ("AA") terminated the Company during the audit due to lack of information and insulting letters sent to them, when they asked for similar verification of stock holdings in the company Iviewit Technologies, Inc. (fka) Iviewit Holdings, Inc. held by Iviewit Holdings, Inc. (fka) Uview.com, Inc. It appears from review of the AA audit letters that this aspect of the corporate structure may have been misrepresented to them by some of the Responsible Parties.

When asking the Company to prove that the shareholders in Iviewit Holdings, Inc. (fka) Uview.com, Inc., whereby the majority of shareholders have their interests, had any ownership in Iviewit Technologies, Inc. (fka) Iviewit Holdings, Inc. where PR has its interest, they were met with insulting letters accusing them of having had something to do with the Company filing improper or wrong tax returns. It further appears that AA claimed to management that our accountants daughter Erika Lewin, CPA, also an employee of Iviewit, was "miffed" that she was being accused of misleading auditors. Upon review of the AA letters, the Company finds that the corporate structure that was presented to the auditors appears false and misleading and very confusing as to why there are two companies with the exact same name. It further appears that the Company with the patents has the minority of shareholders, including PR and possibly has no affiliation with Iviewit Holdings, Inc. (fka) Uview.com, Inc. We attach letters from the AA audit and letters from Crossbow Ventures regarding failed investor compliance issues with regard to the Company reporting obligations for your review. EXHIBIT ("B")

Acting management has also found that Rubenstein & Christopher Wheeler (“Wheeler”) of PR have made statements to State Bars the Company has filed complaints with, in deposition testimony and in a direct letter to 15th Circuit Civil Court in West Palm Beach, Florida, that PR and Rubenstein had absolutely no involvement with the patents or any patent work whatsoever for the Company. These statements regarding their claim of non involvement, seemingly conflict with much of the Company documentation, including but not limited to: billing records, PR co-authored Wachovia Securities Private Placement Memorandums (“Wachovia PPM”), emails, patent transfers, letters by third parties, investment materials used to secure investment, all pointing to their involvement as patent counsel. If proven as factual that PR and/or Rubenstein had involvement with the Company patents than everything they have claimed to these agencies and under deposition could not be further from the truth and it may pose the single largest conflict of interest to the shareholders of Iviewit and those who put sweat, seed money and inventions into the Company.

This conflict of interest, if proven factual, would point to some of our trusted lawyers and outside professionals profiting from the global proliferation of our technologies and you the shareholders may not be. Rubenstein, as many of you know, took the original invention disclosures from three of the original inventors Eliot Bernstein, Zakirul Shirajee and Jude Rosario, opined on the “novel” (patent term for never before seen and patentable) nature of the inventions causing many shareholders to rely on such statements whether directly, indirectly through Wheeler, or through investment documents used by the Company for third party investment that were reviewed, billed for and disseminated by PR prior to distribution.

The Company hired Rubenstein and PR for good reason, Rubenstein had formed patent pools including but not limited to MPEG2, MPEG4, DVD, DRM, IEEE 1394, HAVi, and was the sole reviewer, the proverbial gatekeeper, of patents for inclusion into such pools. These pools are estimated to generate into the trillions of dollars of revenue as high definition digital video and all related appliances approaches the penetration of color television. If Rubenstein, who had already deemed the Iviewit inventions as core and essential technologies to pools he controls, had put our patents into such pools as promised, the Company would be receiving its commensurate share of royalties in the applicable pools. Rubenstein, as testified to under deposition, receives legal fees as counsel to the MPEG pools, PR is receiving fees as acting counsel for such pools,

Rubenstein is also acting as Iviewit patent counsel and finally PR is acting as Iviewit client counsel, with no protection established for Iviewit, these conflicts of interest pose significant risks to the Iviewit shareholders. It is further frightening that under deposition both Wheeler and Rubenstein are unsure if a conflicts check was ever done when they took the Bernstein's and Iviewit as clients. Finally, Wheeler claims in his deposition that no written retainer was in place for over nine months during which time they handled patent disclosures and introduced Iviewit to many of their clients and investors.

The conflict of interest is wholly more terrifying if such patent pools utilize Iviewit technologies and do not pay royalties to Iviewit and could pose as a form of anti-competitive behavior if the pools Rubenstein controls have denied Iviewit royalties for inventions learned while Rubenstein was Iviewit counsel. For example, each DVD player or DVD sold in the world, has technologies it utilizes, which make it work, and all the patented technologies used share a common royalty and each member gets a percentage of the royalty paid. Same for video streams and all the equipment that creates and streams it to your computer that use MPEG or other pooled technologies for such items as televisions, cell phones or other hand held devices. Since some of these inventions like video phones could not occur without Iviewit technology in such low bandwidth environments it is not only core technology, it is essential. Iviewit's technologies have been deemed core and essential by Wheeler and Rubenstein and many other outside sources have confirmed similar information regarding the applications of the technologies. Rubenstein was patent counsel for Iviewit, an Advisory Board member and a shareholder, who had total control of the fate of the Company's patents and was retained in a patent oversight role as described in most of Iviewit's materials disseminated to third parties for investment.

It is most damaging to note that Rubenstein denied knowing Bernstein and other inventors in his deposition, denied knowledge of the Company that he owned stock in, was an Advisory Board member of, controlled the patents in, maintained original patent disclosure documents in his own and Wheelers offices, directed Raymond Joao's every move on filings, induced investment from numerous shareholders, and opined on the technologies whether directly, through Wheeler or through other investment materials distributed to third parties and controlled by PR. Further, after PR billed for, co-authored and disseminated a Wachovia PPM whereby it is clearly stated that Rubenstein was **"Iviewit patent counsel"** and further as exhibited throughout EXHIBIT ("C") PR

management pick Utley, sent such Wachovia PPM to the Company's single largest investor Crossbow Ventures™ ("CV") for use on a Small Business Administration Loan form. By reviewing this Wachovia PPM Management and Advisory Board section sent over by Utley for use by the largest investor in Iviewit, CV, for use on a Federal form, it appears almost ludicrous to read Rubenstein and Wheelers deposition statements whereby Rubenstein denies knowledge or existence of Iviewit and Rubenstein and Wheeler both deny intricate knowledge of the technologies and patents. This further poses the question that if Proskauer and Rubenstein are in no way involved in the Iviewit patents, who is committing fraud on investors and Federal Agencies by stating that Rubenstein is patent counsel for the Company. This question is almost self-explanatory as one learns that the Wachovia PPM was billed for, co-authored, controlled by and disseminated mainly by PR and their management referrals.

What was represented as a six month patent process and inclusion into the patent pools, has turned into an almost six year fiasco and not a single patent has issued. Instead, all the patents are being put into a six-month suspension by the USPTO while investigations into the allegations are reviewed. The Company is reviving abandoned patents such as "Zoom and Pan on a Digital Camera" and attempting to find out how much damage has already been caused to shareholders and trying to stop further damage to what remains. It appears that after reviewing our technologies and finding them "novel", PR, a prior real-estate firm with virtually no patent department, went out and found Rubenstein, at the very time Wheeler had seen the technologies and assumed the responsibility of finding patent counsel for Iviewit, not for Proskauer. It appears PR found the single largest benefactor of the Iviewit technologies, with the most to gain or lose from the Iviewit technologies, Rubenstein, who had formed these pools. On information and belief PR then hired the entire patent department of MLGS including Rubenstein moving them to PR's New York offices and thereby assumed the patent pools Rubenstein controlled, as clients of the PR firm to inure benefits solely for the gain of PR. PR is currently making money through client billings and patent filings for firms included in the pools, which directly inures benefit for PR, and not the shareholders of Iviewit.

As many of you know the prior MPEG standard of video at low bandwidths such as the Internet was horrible (6-8 frames of postage sized out synch audio/video) and at the upper ends, like HDDVD the processors had maxed out and were incapable of producing higher quality video. Until Iviewit technologies solved for the problems and gave the world its

first full screen, full frame rate at bandwidths as low as 56Kbps, previously thought impossible. In virtual world imaging products, the tiny picture boxes with often fish eyed views and low zoom capabilities on low resolution images, limited these technologies uses. Until Iviewit technology fixed such problems giving the world a low resolution picture at full screen with tremendous zoom capabilities, making the technology perfect for digital cameras and hosts of other imaging products like TIVO, the Internet and PDA's or any screen for viewing images or videos.

PR now has for client accounts these very patent pools according to deposition statements of Rubenstein and if this is so the possibility exists that Iviewit technologies are being utilized in such pools and are generating our law firm revenues. Further, through the introduction under Non-Disclosure Agreements ("NDA") with their clients and referrals, PR may have further proliferated the technologies across a broad array of industries and products and there is indication that many of their clients may be using processes learned under such NDA with no benefits inuring to the Company's shareholders. If these conflicts are proven true, the shareholders may have significant claims against Advisory Board Member, patent counsel, shareholder Kenneth Rubenstein and Advisory Board Member, general counsel, shareholder Christopher Wheeler and the law firm, shareholder, PR. Further, the shareholders may be owed over four years of royalties from such patent pools and violations of NDA's, totaling a substantial sum of monies.

Finally and there is a substantial likelihood that the proceeding is true, management fathoms that shareholders have significant claims against all Responsible Parties insurance malpractice contracts and any other forms of remedy available who are involved in the use of the technologies in violation of attorney client privileges and in direct conflicts of interests amongst other alleged crimes. Therefore, the Company shall let this letter serve as notice to the Responsible Parties listed, of potential, threatened, and forthcoming claims by the Company and its shareholders in regards to these matters and all subject to further claims as all investigations are still active and other issues may arise giving way to new information or entirely new charges.

In response to these alleged wrongdoings, acting management has filed complaints on behalf of the shareholders with:

- The Commissioner of Patents and Trademarks in conjunction with CV claiming **FRAUD UPON THE UNITED STATES PATENT AND TRADEMARK OFFICES** whereby constituting **FRAUD UPON THE COMPANY IVIEWIT AND ITS SHAREHOLDERS** against all Responsible Parties.
- The United States Patent & Trademark Offices Office of Enrollment and Discipline (“USPTO-OED”) against six of the attorneys involved individually.
- A Department of Justice complaint for anti-competitive practices maintained by the patent pools in Rubenstein’s exclusion of the technologies that he learned as Iviewit patent counsel and counsel for such pools, which pools controlled by Rubenstein may be using Iviewit technologies, in dire conflict of interest to the shareholders.
- A Federal Bureau of Investigation complaint.
- A New York Bar Complaint against Rubenstein and Joao.
- A Florida Bar Complaint against Christopher Wheeler.
- A Boca Raton Police report currently being investigated in conjunction with the SEC.

At the point that the Company found missing inventors and missing assignments done by Joao and also found Joao writing patents in his own name, that have similar concepts as those learned while he was patent counsel to Iviewit (he now claims 90 patents in his name) the Company fired MLGS as counsel. The Company then hired FL to investigate and correct the errors discovered in Joao’s work. Instead, what occurred, was further malfeasances as FL further causes Fraud upon the United States Patent & Trademark Office by naming the wrong inventors, including naming Utley as an inventor either replacing original inventors or solely (soullessly) as sole inventor and finally causing further misdirection with assignments or failing to file assignments completely.

The Company finds itself then asking “does Foley appear to have tried to move the patents further out of the reach of shareholders” after replacing MLGS as counsel, whereby furthering the prior actions of Joao. As mentioned earlier the corporate records indicate the shareholders may have no proven interest in some companies holding patent assignments and in such company, Utley is found on patents named as an inventor

without consent or knowledge of the original inventors or the Non-Responsible Parties. Needless to say, the Company finds it highly suspect that patents are in Iviewit Technologies, Inc. (fka) Iviewit Holdings, Inc. at all, which has a minority of shareholders EXHIBIT ("D") including PR and not in Iviewit Holdings, Inc. (fka) Uview.com, Inc., EXHIBIT ("E"), with the majority of shareholders and where all patents were supposed to be held. The only reason the Company ever set up a company for PR was because they could not join an S Corporation that PR strategized would be best for the Company and then they billed us grossly for such services that aided them in accepting Iviewit stock.

It appears that after FL began listing Utley either solely (soullessly) on patents or replacing inventors with Utley, further misdirecting assignments or not assigning patent applications at all, may have all been done in part with a shell game with the corporations. Whereby with confusing name changes of the Company to identically named entities, that these patent assignments were part of a larger scheme to usurp shareholders of their interests in technologies by moving patents out of the shareholders reach. The information provided by the Responsible Parties would lead a reasonable person to believe that patent assignments were in Iviewit Holdings, Inc. (fka) Uview.com, Inc. rather than in actuality Iviewit Technologies, Inc. (fka) Iviewit Holdings, Inc. and should that reasonable persons belief be fact, then such occurrences would be tantamount to Responsible Parties who were not inventors and whom were hired or retained to protect the interests of the shareholders are benefiting wholly from the technologies for themselves. This corporate shell game combined with the patent wrongful assignments or lack thereof may further indicate an attempt to abscond with the Company patents entirely and the shareholders investments as well, by such Responsible Parties.

After, AA terminated the Company midstream in an audit for what can only be claimed as highly suspect reasons regarding the corporate structure and other matters, the Company had found Utley with what appeared two sets of patent books (some with his name and some without), after further learning that an investor (including but not limited to Bruce Prolow & Carl Tiedemann) had transacted a loan with the Company with no Board or investor approval, after learning that there were problems with the Company structure that was represented by the Responsible Parties, it appears that some of the Responsible Parties then attempted to bankrupt the Company (Utley, Reale, Hersh & RYJO) or sued the Company, PR, in an attempt to bury the Company before it could

figure out what exactly had transpired. It appears that the intent behind the involuntary bankruptcy and lawsuit may have been to get rid of Iviewit Holdings, Inc. (fka) Uview.com, Inc., and the many shareholders who built Iviewit through these dubious actions. Once rid of the shareholders, the Responsible Parties would have already acquired the core technologies with Utley as the inventor in their company Iviewit Technologies, Inc. (fka) Iviewit Holdings, Inc., whereby the Company has no evidence showing interest in such company. This would have left PR free to monetize the patents via the patent pools and their clients using the technologies learned either under NDA or through neglected attorney client privileges and not having to pay anything to the Company and the shareholders.

The mere fact that the patents are found in Iviewit Technologies, Inc. (fka) Iviewit Holdings, Inc., where PR may be one of two or one of four or five shareholders appears as unethical as can be imagined. Further, the Company has found that Utley and Dick have previously tried to abscond with patents from Utley's last employer, Diamond Turf Equipment, causing the loss of the business to the owner. This major patent malfeasance causing loss of a business to Utley's former employer was never disclosed to the Company and therefore leaves one of sound mind wondering if they were not trying a similar attempt to misappropriate patents from Iviewit.

Wheeler, who forced Utley upon the Company, submitted a resume that significantly misrepresented the facts of his last employment, (and in Utley's deposition Utley makes it clear that Wheeler was "fully cognizant" of the circumstances leading to his termination) thus it appears that Wheeler had mischievous intent in his selection of Utley as the President & COO for the Company. This appears to have been for personal motives other than the benefit of the Company and the shareholders. All of these issues were discovered over months of investigation with authorities, in depositions that were taken, and recent information procured in State Bar statements by the key attorneys involved and information recently learned from the USPTO. The Companies acting management has taken the following steps to protect shareholders interests in these matters:

III. OWNERSHIP ISSUES: IVIEWIT ENTITIES

As described above, Iviewit Technologies, Inc.(fka) Iviewit Holdings, Inc. according to the records of the USPTO benefits from the assignment of certain critical patent applications of the Company, but when viewing the incorporation books and incomplete audits, it is wholly unclear what percentage ownership Uview.com, Inc. (fka) Iviewit Holdings, Inc. has, if any, in Iviewit Technologies Inc. (fka) Iviewit Holdings, Inc. This ownership issue is entirely irrelevant as the patents should be in Iviewit Holdings, Inc. (fka) Uview.com, Inc. with the rest of the shareholders, yet certainly this indicates some form of malfeasance taking place.

In fact, it appears that in the thirteen days that Iviewit Technologies, Inc. (fka) Iviewit Holdings, Inc. was formed under the name Iviewit Holdings, Inc. significant assignments may have been made whereby the patents were switched and not placed in the Company with the majority of the shareholders Iviewit Holdings, Inc. (fka) Uview.com, Inc. to a company whereby PR may have a 75% interest in critical core and essential patents. The assignments made by Utley to Iviewit Technologies, Inc. (fka) Iviewit Holdings, Inc., appear from the information learned at the USPTO to have **not** gone into the Iviewit Holdings, Inc. (fka) Uview.com, Inc., that the Responsible Parties had led shareholders to believe they were going into. Other company ownership problems are currently being investigated by management and similarly all assignments are being investigated as information becomes available to the Company from efforts with the USPTO and foreign patent offices.

Additionally, the Company has knowledge that one or possibly more of the patent applications of the Bernstein/Schirajee/Rosario/Friedstein/Armstrong, Daniels, Iantoni, Frenden and Mink inventions currently reside in the name of Utley or have Utley misrepresented as an inventor replacing true inventors, without proper assignment to the Company. As a result of discussions with the USPTO, these patent(s) may not even be the property of the Company, actions of which were not authorized by the Non-Responsible Parties and directly attributable to the Responsible Parties, and where such actions were contrary to the representations of the Non-Responsible Parties to shareholders caused by, knowingly and willfully, false information disseminated by the Responsible Parties.

Moreover, such ownership issues, inventor issues and assignment issues were misreported by PR, MLGS, FL, and later, BSZT to shareholders and other third parties for investment. Upon sending our Intellectual Property dockets done by some of the Responsible Parties to the USPTO for review, almost all of the information was verified to be different than as represented by Responsible Parties to the Non-Responsible Parties and other shareholders and third parties.

Upon learning of math errors, inventor errors, and assignment errors with the work product of FL, and upon catching Utley with two sets of patent books, a series of taped conversations were held with some of the Directors and Officers of the Company, whereby FL and PR were confronted with the liabilities these problems could have caused to shareholders and potential claims of fraud upon investors from the errors, and where the Company requested them to write letters to the Company regarding these exposures they had caused. Instead of letters addressing the liabilities of improper assignments, improper inventors and flagrant errors in the patents, the Company was sent letters accusing the Company of over reacting in its responsibility to report such errors and possible fraud to shareholders and minimizing the errors in the patents. Then both FL and PR literally vanished out of sight. Neither firm ever completed a letter regarding the potential fraud committed by the errors of their firms work. It is unclear that once they were made aware of the claims of the Company and allegations stemming from such claims, if they failed to report the occurrences to their liability carriers that may further constitute insurance fraud.

After replacing counsel FL with new counsel BSZT, the Company further finds that this firm may also have become entwined with prior Responsible Parties and furthered the patent errors to new levels. BSZT was hired to conduct an audit on the Iviewit patent portfolio, whereby they found further evidence of patents the Company had never authorized listed solely (soullessly) with Utley as sole inventor as filed for by Dick and his subordinate Boehm and Becker working on behalf of FL. What is even more bizarre, is that although the patent office will not disclose any information on one of these patents found by BSZT to the Company stating that no interest is maintained in it by the Company, that BSZT then listed it on the Company Intellectual Property Docket as an asset of the Company. Should they have properly audited the records, it would have been clear to them that the Company had no interests according to the USPTO and would have been forced to report such misconduct to proper authorities and instead they chose to claim to the Company that they were working to change the Utley inventor designation, assign it properly to the Company and other such work claimed to have been performed on a patent the Company has no rights to.

We also find that BSZT when asked to file a similar charge of **FRAUD UPON THE UNITED STATES PATENT & TRADEMARK OFFICE** by certain of the Responsible Parties, as the one later filed by Stephen Warner, Chairman & Co-Founder of CV in conjunction with Iviewit with the USPTO and foreign patent offices, that BSZT failed to file the Company response. Whereby the Company was forced to contact foreign patent counsel in London directly to file the charges, which was done by the foreign affiliate. Upon learning of the Companies filing with the foreign patent office, BSZT immediately began a series of denials of their knowledge of the problems with patents caused by the Responsible Parties. Further, BSZT now claim to have sent the entire patent files, for over twenty application with the USPTO and foreign offices, spanning a five year period, and all original patent and disclosure information that had previously been sent to them by prior patent counsels FL and MLGS, back to the Company in two Federal Express boxes. The problem with this unauthorized transfer is enormous, as the Company never gave any written or oral direction to transfer such original documents. BSZT sent an unsigned for inventory they claim was inside the boxes transferred and which was never signed and returned to them acknowledging receipt by the Company for such materials and further BSZT had clear orders in writing from the Company, that all correspondences of any nature were to be sent to Caroline Proschotska Rogers, Esq. at her physical address until further notification by the

Company. It also appears that they transferred the files and lost items critical to filings that had answers due in response to USPTO office actions, all this transfer done prior to being relieved from their duties by the USPTO where such process appears contrary to rules regulating attorney agents of the USPTO.

This unauthorized transaction has left the Company without any verification that such files were ever sent and that anything that may have been sent may not be what is listed on such unsigned inventory. This has left the Company with catastrophic loss of original documents and materials showing the true dates of the original inventions. It is also of note that BSZT did this transfer when only several weeks prior they were directed to send such files directly to the United States Patent Offices Office of Enrollment & Discipline for further investigation purposes, as well as, all the Local, State and Federal Agencies involved in any form of formal or informal investigations.

Finally with regard to BSZT, it appears that Japanese filings may have been made by BSZT, whereby Utley was again listed as an inventor and improper assignments may have been made, the Company is waiting for further information into these filings. Remarkably, these filings occurred after BSZT was made fully aware that Utley should be on no applications, that he was fired with cause for such actions and BSZT had further informed the Company that they were in the process of removing Utley from patents (a claim which we now find is false), and instead it appears that BSZT filed new patents with Utley listed as inventor perpetrating further actions of fraud upon the Japanese patent office.

Finally, the law firm of Schiffrin & Barroway, LLP (SB) who signed a Letter of Understanding which also served as a legal retainer (LOU/Retainer) EXHIBIT ("F") with Company, may also have been involved with causing further liabilities to the shareholders of the Company and further caused significant damage to the Company and its patents. SB came to the Company through introduction by Mitchell Welsch of UBS/Paine Webber Inc. ("UBS"), a shareholder who had prior been a contracted investment banker for the Company, who claimed that he was a close friend of Andrew Barroway, whose law firm was also, on information and belief, known to run a sidecar venture capital company. After months of review of all the claims described herein to the point immediately prior to signing the LOU/Retainer, SB made an unauthorized call to PR to discuss possible settlement with Iviewit, prior to having any signed LOU/Retainer

with Iviewit. When Mitchell Welsch was confronted with this information, he disclosed that it was OK that they did this call because PR had reported to SB that massive settlement was on the horizon and it had been discussed at length. Welsch further indicated that his father had a friend, a certain head litigator at PR, whereby the information was further confirmed. SB also made similar claims to management and others.

Immediately following the unauthorized call, SB signed the LOU/Retainer and agreed to all terms and began performing under the contract, stating that after their call to PR they were confident that any cost incurred under the LOU/Retainer would be far less than the monies they were going to recoup under this massive settlement they claimed was shortly coming to the Iviewit shareholders with PR. SB had enormous interests under the LOU/Retainer in the Company as a shareholder, in fact they became the largest shareholder in Iviewit under the terms of the LOU/Retainer. Instead of procuring a massive settlement for Iviewit shareholders against PR, the day before trial, they presented a settlement with absolutely no benefit for Iviewit shareholders and in fact certain exposures apparent regarding the Intellectual Property and lack of any provisions for the confidentiality of such Intellectual Property learned under attorney client privileges, and further Iviewit would also have surrendered its ability to file any claims against PR for any damages caused by the prior actions described herein that may have caused permanent damages to the Iviewit patents. After being noticed of the apparent conflict of interest SB had in negotiating for all sides involved in the settlement, including themselves, they were forced to provide other counsel for the Company and Eliot Bernstein for independent review of the settlement agreement. After review, the settlement document was met with extreme concerns by corporate counsel and personal counsel retained by SB for the Company and Eliot Bernstein, exposing massive liabilities to shareholders if such settlement were signed in the form it was in.

SB then removed from the table the settlement, told current counsel in the two-year-old litigation with PR, attorney Steven Selz, Esq. ("Selz"), to stand down after they had signed in as co-counsel, as SB was going to takeover and pursue the trial in the case between Iviewit and PR and that settlement negotiations were over. The following day, both Selz and Eliot Bernstein prepared and went to Court for a trial that someone had cancelled without notifying any parties representing Iviewit.. The Company was then notified that a new trial date was being scheduled and at the date for this rescheduling,

instead the Company found that both SB and Selz, filed similar requests for withdrawal as counsel both claiming that the other counsel would be representing the Company. Somehow, the Judge, Honorable Jorge Labarga, had allowed both requests to be granted and left Iviewit with no counsel, even though had SB been forthright with the Judge in the case and shown him the LOU/Retainer it clearly states that they are to provide counsel for Iviewit in the case. With almost no time to find new counsel, after being denied time to secure such counsel by the Judge, the Judge entered a default judgment against the Company for failure to retain replacement counsel, this has cost the Company a judgment of approximately \$500,000.00. These damages are directly attributable to SB's breach of their obligations under the signed and binding LOU/Retainer.

After reviewing the LOU/Retainer it is clear that SB has many other obligations they are failing under, such as:

- Providing representation at the USPTO and foreign patent offices.
- Providing an operating budget for approximately \$1,500,000.00
- Providing a minimum of \$250,000.00 to fix past patent counsels errors if possible.
- Provide representation against all perpetrators of any wrongdoings they had found after reviewing the Iviewit materials over several months.
- Provide representation and take actions against NDA infringers, some several hundred of them.

These obligations that have been breached have caused massive damages to the Company and further the LOU/Retainer signed by SB lost the Company the ability of making other deals at the time, that could have helped them in all of these matters. It appears that SB had ulterior motives when signing the binding LOU/Retainer that may have been for their own benefit and the benefit of PR at the expense of the Company and its shareholders. SB had retained the law firm of Christopher & Weisberg, P.A. ("CW"), to represent the Company in patent matters, and had suggested Alan Weisberg, as he was a brother-in-law to one Krishna Narine, Esq. a partner at SB to handle our affairs and then SB ordered that BSZT send CW all patent files which was executed by BSZT. These files were supposedly later returned to BSZT when SB notified CW to cease representing Iviewit in matters before the USPTO and foreign patent offices.

The Company has taken action against SB by filing a complaint with the Pennsylvania State Bar and notifying the USPTO of their obligations to provide representation at the patent offices through their LOU/Retainer. The Company has filed a complaint with the USPTO-OED against Alan Weisberg for his sudden departure as counsel to Iviewit at the bequest of SB.

Several other alleged crimes purported to have been committed by Responsible Parties, have been reported to Local, State and Federal agencies, as well, by CEO Lamont and Eliot Bernstein.

Finally, and there is a substantial likelihood that the proceeding is true, management fathoms that shareholders have significant claims against the Responsible Parties insurance malpractice contracts and any other forms of remedy available, who are involved in the naming of wrong inventors, filing wrong assignments or none at all, filing patent applications knowingly fraught with errors or any other malfeasances mentioned herein or any actions contrary to the interests of the shareholders known or unknown.. Therefore, the Company shall let this letter serve as notice to the Responsible Parties listed, of potential, threatened, and forthcoming law suits by the Company, its management and its shareholders.

V. CONCLUSION

As a result, those of you who were former Officers, Directors, Advisory Board Members, and Outside Professionals, during the time periods in question, the potential exists that you may have liabilities as a direct result of the Responsible Parties, concerning possible breaches of fiduciary duties and attorney client privileges with respect to shareholders, and it is with this in mind that the Company submits this report. In forming the Responsible Parties list contained herein, the acting management has found a common thread linking almost every Responsible Party to referrals stemming from Gerald Lewin and Christopher Wheeler's referrals to the Company.

Consequently, the Company finds it necessary to report these unpleasant happenings to you with a view towards each of you retaining personal counsel, the choice of which

resides solely with you. Additionally, one or more of you may find it fortuitous to assist the Company in engaging an independent CPA firm to conduct a full audit of the Company's financial books and, similarly, to engage both a corporate and patent law firm to conduct a full investigation of the Iviewit entities and where shareholdings may or may have been held or transferred and similarly an intellectual property audit to find out the exact location of all inventions and patent assignments.

Furthermore, in light of these occurrences, the Company has taken steps with the USPTO to petition the USPTO Commissioner to stay actions on any and all Company patent applications, of which two have been approved, claiming in conjunction with Stephen Warner, Chairman & Co-Founder of Crossbow Ventures, **FRAUD UPON THE UNITED STATES PATENT AND TRADEMARK OFFICE** by many of the Responsible Parties named herein on active and abandoned patent applications, effectively putting the process into a six (6) month state of suspension. It is entirely unclear of how much damage has already been done to the Company patent portfolio, that should have been inuring royalties estimated over the twenty year life of the patents to be approximately seventeen billion dollars (U.S. \$17,000,000,000.00) EXHIBIT ("G") based on work done by CEO P. Stephen Lamont (upon request the entire program that calculated this can be obtained by calling Lamont at 914.217.0038 in pricing the various royalty streams due the shareholders.

Still further, the Company, in addition to six complaints filed with USPTO Office of Enrollment and Discipline, has filed written statements with the West Palm Beach Office of the Federal Bureau of Investigation, the Boca Raton Police Department whom has involved the United States Securities and Exchange Commission, the AICPA, and the Bar Associations in the States of Florida, Virginia, and New York, and the United States Department of Justice, Antitrust Division as a result of these occurrences; in light of the fiduciary responsibilities of acting management. We urge all shareholders to contact such local, State, and Federal authorities listed herein to find out the state of the complaints filed by the Company on the shareholders behalf.

The Company will further attempt to make claims against all insurance policies held by the Responsible Parties and therefore it is requested that all information and disclosure of any insurance policy information by the named Responsible Parties, be forthright and complete in aiding the shareholders to file claims for malpractice and any other remedies

available to them. Let this letter serve as notice, to those of you named as Responsible Parties, to notify your respective carriers immediately of these pending and threatened claims by the Company, certain Non-Responsible Parties and certain shareholders. Attached is a threatened litigation the Company has received by CEO, P. Utlely patents
with arrows

This portfolio was prepared and submitted by William Dick for the Virginia Bar and further corresponds to the one prepared by Foley and Lardner after Utlely was found with two sets of patent books. Prior, Utlely only patents were not in any records. Further it is wrong to list assets like 341 which are not the property of the Company on a patent portfolio that is distributed to shareholders and investors.

US SERIAL NO. 09 630 939

Dear Commissioner of Patent & Trademarks:

Please let the attached changed of inventors request serve as an official request pursuant Section 37CFR 1.48 to change the inventors. Whereby, intent to commit fraud on the USPTO is the listed reason.

CHANGE OF INVENTOR REQUEST
US SERIAL NO. 09 630 939

PURSUANT TO 37CFR 1.48
INTENT TO DECEIVE AND COMMIT FRAUD UPON THE USPTO

I, Eliot I. Bernstein, as acting President of Iviewit and its affiliates, and as a named inventor on this application, hereby request that the true and correct inventors be added and the wrong inventors removed from this Non Provisional application 09 630 939 to properly name the inventors of this invention.

The listed and incorrect inventors for this application are:

Eliot I. Bernstein
Brian G. Utley

The true and correct inventors for this application are:

Eliot I. Bernstein
Zakirul Shirajee
Jude Rosario

The reason for this correction:

The true and correct inventors have been purposefully been left off this patent application by three different counsels all failing to correctly fix the inventor issues and wrong disclosures. Since the creation of the invention, our initial counsel in the Provisional filing **60 125 824** attorneys Kenneth Rubenstein of Proskauer Rose LLP ("PR") and Raymond Joao of Meltzer, Lippe, Goldstein, Wolf & Schlissel, P.C., ("MLGS") failed after repeated requests to make the inventor and content changes, although they had full knowledge of the correct inventors and the correct invention. In addition, the content of the Provisional application had changed from what the inventors disclosed initially and pertinent disclosures were left out with malice and intent to deceive the USPTO and further deprive the inventors of their inventions. Subsequent counsel to "PR" attorneys William Dick, Douglas Boehm and Steven Becker of Foley & Lardner ("FL") on this Non Provisional filing, created further errors with the inventors and failed to correct either the inventors or the content of the Provisional. This may now leave the pertinent disclosures left off and incorrect inventors, to serve as new matter in the in subsequent

Page 3 of 8

Non Provisional filings that claim priority to the Provisional application. Successor counsel to "FL" attorneys Norman Zafman, Thomas Coester and Farzad Amini of Blakely Sokoloff Taylor & Zafman LLP ("BSZT") also failed to file the corrections despite repeated requests by the Company to get the corrections to the patent office.

Initially, attorneys Kenneth Rubenstein of "PR" and Raymond Joao of "MLGS" knowingly, with malice and intent to commit fraud upon the USPTO, left inventors off the Provisional application after obtaining their signatures and disclosures in meetings. Mssrs: Rubenstein and Joao, on the subsequent Non Provisional Filing (09 522 721) and the PCT (00 07772) filings, despite being aware of the prior problems discovered, made no attempt to fix their errors on the Non-Provisional filing. They further continued the errors of their Provisional filing, despite having the inventors sign and fix the new Non-Provisional filings; these changes and signatures were completely discarded by them and again a different application was filed. Mr. Rubenstein, an Advisor to the Board and Shareholder, who under deposition claimed to not know the Company now, had been the first patent attorney to meet with the inventors and receive the disclosures and he represented that he was directing his underling Mr. Joao to do the Provisional filings with his oversight. Raymond Joao was terminated as counsel for this and other patent malfeasances that became uncovered.

To replace "MLGS", "FL" was retained to make corrections to the patents and get the correct inventors listed. Again, it was fully disclosed who the correct inventors were and what the inventions were to each of these attorneys at "FL" for this application and other applications of the Company. After reviewing Mssrs: Joao and Rubenstein's work "FL" found that Raymond Joao had failed to properly list the inventors and left out pertinent disclosures on the filings. Upon finding out about the correct inventors, "FL" attorneys stated that the corrections were being made to the Provisional & Non-Provisional applications. After meeting with and taking disclosures and signatures of the true inventors, "FL" failed to make the corrections knowingly, with malice and intent to further commit fraud on the USPTO in their Provisional, Non-Provisional and PCT applications filed by them. Further, in instances such as this application where Brain G. Utley is a listed inventor, "FL" added inventor Brian G. Utley, knowingly, with malice and intent to further commit fraud upon the USPTO, knowing that he was not an inventor in any material way to the patents and was not even there when they were invented. Finally, in instances such as this filing, true and correct inventors have been partially left off the application and others were replaced by Mr. Utley as a new inventor.

This application is also a replacement of the original patent the Company had filed with Mssrs: Joao and Rubenstein for the original invention in an effort to let the original patent expire and replace it with this application. Yet, amazingly, the application does not get

corrected it further gets an entirely new set of inventors, again these inventors are wrong knowingly, with malice and intent to commit fraud on the USPTO. In this Non Provisional application, some of the true and correct inventors were dropped and replaced by Brian G. Utley. Mr. Utley should not be on any applications for the Company, as he has not invented anything.

It will serve to note here that it has come to the attention of the Company after an investigation into Mr. Utley's background that quite the opposite of what his resume states about his prior employment to the Company is true. At his former job as President of Diamond Turf Equipment Inc. in Florida, a company owned by a Mr. Monte Friedkin of Benada Aluminum of Florida, Mr. Utley with the aid of Mr. William Dick of "FL", had stolen off with ideas learned while employed at Friedkin's company relating to turf equipment. Mr. Utley had written these patents into his own company, Premiere Consulting, and his own name as inventor with no assignment to the company he worked for, Premiere Consulting was separate and apart from his employer. Upon discovering the absconded with patents, Mr. Friedkin demanded that the patent applications be turned over to the company as they were learned while working at his company by Mr. Utley. Mr. Utley refused to sign them over to his employer and was fired with cause immediately for these patent malfeasances. Mr. Friedkin was forced to immediately close the business and take a substantial multi-million dollar loss on the company due directly to this incident. Additionally, the company, Premiere Consulting, that was set up to receive the patents Mr. Utley misappropriated, was set up by Christopher Wheeler of Proskauer Rose LLP, who was the first person to see the technologies, who then brought to the Company to handle our patents Mssrs: Rubenstein, Joao, Utley and Dick. What Mssrs: Wheeler, Utley and Dick failed to disclose to our Company was the past patent malfeasances and the damage caused to Mr. Friedkin by their actions. I quote from the resume Mr. Wheeler submitted on behalf of his dear friend Mr. Utley to the Company to hire him as President and handle our most prized possession the patents:

Personal Resume

Professional History:

President, Diamond Turf Equipment, Inc. July, 1995 to July 1999.
In 1995 the company was engaged in refurbishing obsolete and run-out golf course maintenance equipment and had annual sales of \$250K. Since that time the company has been transformed into a manufacturer of new machines which compete favorably with the best of the market leaders and an expected revenue for 1999 of \$6M. The design of the machines was by Brian and was accomplished while putting together a manufacturing and marketing team capable of supporting the rapid growth of the company.

Page 5 of 8

This resume is materially different from the truth. Mr. Utley was fired for cause and the company Diamond Turf Equipment Inc. closed upon his firing. Understanding that the same people (Wheeler, Utley & Dick) who had caused this calamity are the very same people who have caused similar harm to our Company, using similar patent malfeasances is core to understanding why our patents have such a bizarre array of problems. The very fact that this was not disclosed in writing and waivers, by any of the attorneys and further lied about in Utley's resume by Mr. Wheeler who procures the false resume to cover this up, is a sign of their intent to commit similar crime upon our Company and perpetrate similar fraud upon the USPTO. Had the Company been aware of this past patent malfeasance they were involved with the Company surely would have never hired any of them.

With this understanding, it appears that the intent of "FL" was to replace patents of the original inventions with patents whereby Mr. Utley was now named an inventor and finally in some instances Mr. Utley was named sole inventor of certain inventions of the Company. These applications in Utley's sole name are for part of the core technology that he did not invent such as this application. Further, "Zoom and Pan Imaging Design Tool" Provisional patent 60 233 341 and "Zoom and Pan Imaging Using A Digital Camera" Provisional patent 60 233 344 are further instances whereby "FL" writes patents directly into Mr. Utley's name in an attempt to abscond with core formula's and ideas of the original inventions by the true and correct inventors. These Provisional patents with Mr. Utley as sole inventor with no assignment to the Company, were not disclosed to the Company or its shareholders and were only revealed when the Company found in Mr. Utley's possession a set of patents that was markedly different than what the inventors were seeing and signing for. These inventions were undisclosed to the Company and appear to be filed in an attempt to abscond with core features of the original inventions from the true and correct inventors listed above. When caught with two sets of patent books, similar to maintaining cooked accounting books, Mr. Utley was terminated with cause and "FL" was terminated as patent counsel. This patent 09 630 939, has similar elements to their prior patent scam at Diamond Turf, Inc. in that Mr. Utley rewrites with the aid of Mr. Dick and other "FL" attorneys, patents again into his name that were not his inventions. This Non Provisional patent 09 630 939 was replacing the original Provisional, which Joao had already filed as Non Provisional, which "FL" then claimed Joao's work was so wrong, that correcting it was impossible, and this new Non-Provisional needed to be filed with the correct content and correct inventors. Knowing the true and correct inventors and having had them sign applications for what appeared the true invention, "FL" attorneys then threw those signatures and the application out and replaced it with this application before the USPTO, claiming Mr. Utley as an inventor and replacing himself with inventors Mssrs: Rosario and Shirajee.

Finally, "BSZT" the last attorneys of record handling the patents, also failed to file the correct inventors knowingly, with malice and intent to further perpetrate and cover up such fraud of prior attorneys to the USPTO, after repeatedly being requested to make the changes to them. Upon finding that Mr. Utley was not an inventor of anything and that the inventors were wrong, "BSZT" assured the Company that these issues were being corrected. They had me sign a power of attorney on Mr. Utley's behalf to turn the inventions back over to the Company in his name and remove him from any applications his name appeared on, due to his employment and invention agreements signed with the Company that strictly prohibited such misappropriations. Mr. Utley was to be removed from any/all patents that have his name on them and the ones in which he was named as the sole inventor, were to be corrected and turned back over to the Company. Now, upon contacting the USPTO we find that many of these changes remain unchanged, in what appears another attempt to continue this fiasco and cover up for the attorneys before them, "BSZT" made virtually no changes requested by the Company.

At all times, all attorneys were fully cognizant of the true inventors and the true invention for this application. Finally, all these attorneys failed to report the prior counsels misconduct in these matters to the OED Director or any other department at the USPTO or other Federal Agencies and left the Company with many serious problems in the patents. The incorrect inventors are a great risk to the shareholders of the Company and need to be remedied immediately if possible, as the assignment of these patents to the Company and any successive assignments are not signed by the true and correct inventors and thus pose the question of what they currently have rights to in relation to their investments. Finally, many of the attorneys involved in these patents appear to have financial interests and severe conflicts of interest with the Company whereby the company's inventions being approved would stand in direct conflict with either with inventions of their own (Raymond Joao) or patent pools overseen by them (Kenneth Rubenstein).

Currently, I am listed on the patents for examination purposes and after reviewing the inventors listed have determined on behalf of Iviewit and its affiliates, and, on my own behalf as an original inventor at the time of creation, that the true inventors are as listed above and not what exists currently on this application. I was there at the time of invention and all times relevant hereto, and, swear that all of the following statements are true and correct statements to the best of my knowledge.

These issues and many other of attorney misconduct in the above mentioned application are currently under a pending investigation with the Director of OED whom advised me to begin correcting the inventor issues with the USPTO Examiners.

November 27, 2000

Dear Ray,

I am in receipt of your letter dated November 15, 2000 and acknowledge receipt of \$3,000 towards our \$15,000 fee arrangement.

I sincerely regret that you were not with the Company when we were initially engaged on January 19, 2000, as I am certain we would not be in this position today had the Company not had turnover in the accounting department. In that regard, I will consider the \$3,000 payment in full on our services to date which have approximated in excess \$25,000. Similarly, we will not proceed with any additional services at this time. With respect to your reference to Mariana's communication of additional fees, our arrangement letter clearly states that "the ultimate amount of our fee will be dependent upon the completion of these schedules." Clearly, due to the turnover in Iviewit's accounting department, completion of requested schedules was significantly delayed and resulted in an extremely inefficient process. Normally, we bill for the cost associated with this type of delay which is beyond our control.

I am confused with your comment regarding our "refusal" to provide information to your local accountants. I presume that the Company has trial balances that would be used as support of any tax return.

Again, I regret the position that you and I are in with respect to this work and similarly, I regret that our professional relationship has terminated.

Did we just get terminated during audit???

Please feel free to call me if I can be of any help in the future.

Very truly yours,

ARTHUR ANDERSEN LLP

Ms. Denise Veitch
Partner
Arthur Andersen LLP
One Biscayne Tower - Suite 1470
Miami, Florida 33131-1801

Dear Denise:

This acknowledges and responds to your letter of October 9, 2000.

I appreciate that Brian Fox and Steve Davis spent part of a day with us in late September. I truly thought that that was the "end of the road" as respects the completion of the 1999 Audit, and I was disappointed to see yet another list of questions or requests. I did not respond sooner, frankly, in view of your renewed demand that work would not continue or complete in the absence of payment of \$12,000.

That payment was not possible as **iviewit** was in the midst, and in great need, of an additional money raise. A limited, partial funding has just occurred this week, and yours is one of the first accounts I am addressing by this letter and the enclosed check for \$3,000 (at the least, as a showing of good faith).

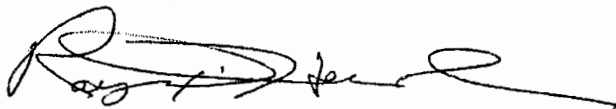

I have been involved with **iviewit** since April, and to the best of my knowledge there has been no meaningful contact from Arthur Andersen at the Manager or Partner level since that time, and who knows when prior. Given that **iviewit** is an emerging company, I would presume that companies of our size or status represent an important component of your own firm's growth strategy - sort of like the importance of the Minor Leagues to the Majors. On that basis, I would expect that your firm and its principals would take an interest in supporting **iviewit** both from the standpoint of prospective customer (other clients) and strategic partnering introductions, as well as funding sources -the latter, either through AA relationships and/or an investment fund which AA may maintain as certain other national audit firms do (I thought that AA was among them).

It is my intention to clear our billing with your firm as soon as practicable. However, I also need reassurance that the \$15,000 fee for the 1999 Audit, of which I have been apprised by our president, is accurate and complete. In that regard, I found it terribly unsettling and unacceptable when Brian Fox mentioned in a telephone conversation this past summer, at which time I was attempting to get this audit finished, that Mariana Santora had indicated that there would be additional billings "due to delays on

iviewit's part." That was the first and presumably the last we have heard of that one! Additionally, I assume you are aware of the memo that I sent to Mariana, dated September 20, 2000, at which time I stated that "the absence of work papers and beginning trial balance...[has imposed] a terrible impediment [on iviewit], preventing the Company from filing timely tax returns." If that was true in September, as it was, it is true today in spades, and at the least, I would expect that, by the enclosure of this \$3,000, the refusal to provide that information to our local accountants, Goldstein Lewin & Co., will be rectified promptly.

Denise, obviously communication between our two organizations has been poor, and I would be happy to meet with you to resolve my issues and concerns. Certainly, we will clear the bill as soon as practicable, and we can all decide, as I otherwise stated to Marianna in the same memo, whether we wish to remain in this professional relationship.

Yours sincerely,

Raymond T. Hersh

This is claim that Iviewit Holdings, Inc. fka Uview.com, Inc. with the majority of shareholders may have no interest in Iviewit Technologies, inc. which has core essential patents and Proskauer Rose may have 75% interest.

Dear Raymond:

As you are aware, we are in the final stages of completing the audit of iviewit Holdings, Inc. To complete our audit, we need to receive the following:

1. Documented evidence of iviewit Holdings, Inc.'s 86.7% ownership interest in iviewit Technologies, Inc. such as a stockholders' agreement and share certificates.
2. Schedule of capital lease obligations of all leased computer equipment. This schedule should provide the total annual future commitments under this lease.
3. Description of any beneficial conversion features of the Company's preferred stock. In addition, please verify if there are different classes of preferred stock, and if so, any differences between these classes of shares.
4. With regards to the 7% promissory notes totaling \$187,500 at December 31, 1999, please verify that the Company accrued interest on these outstanding notes. If not, the accrual will be an additional audit adjustment.
5. With regards to the offer to exchange the above mentioned 7% promissory notes for 12% notes that are convertible into shares of Class A common stock, please provide the amount of the 7% notes that were converted as of April 7, 2000.
6. With regards to the Company's offer to certain qualified purchasers the opportunity to purchase up to \$85,000 in 12% notes that are convertible into shares of Class A common stock, please confirm the total amount purchased as of April 7, 2000.

In addition to the resolution of these matters, we will need to be paid at least \$12,000 of our outstanding fees before any further work can be performed to complete the audit. We have incurred a significant amount of time (approximately 300 hours) and expenses on this engagement and have received no payments on outstanding billings to date.

Re: Your Fax Memo 8/24/00 re iviewit Open Items

Dear Ms. Santora:

With regard to the above list you sent us three weeks ago, I was rather surprised to receive same given that, although I was not part of **iviewit** at the time and was not involved with the December 31, 1999 audit in question, I was of the impression that all field work had been completed some months ago. Consequently, I was most puzzled that that could have been the case in the face of the magnitude of the information you are currently requesting.

Needing help in order to address your questions, I met earlier this week with Erika Lewin, our former Controller and the principal contact person involved with the audit, and, while she is miffed at the possible implication that she was not adequately forthcoming during the audit (which appears not to be the case whatsoever), frankly, I am rather amazed, if not shocked, at her information.

I will address your memo in the same order as provided:

1. I am advised that AA was supplied with a complete flow chart showing all the entities and their interrelationships, succession and former "known as" names. This information resides in four (4) volumes provided by Erika; they are:
 - A. One for iviewit Holdings, Inc. (formerly, uview).
 - B. One for iviewit Technologies, Inc. (formerly, iviewit LLC).
 - C. Two for iviewit.com, Inc. (formerly, iviewit.com LLC).

FALSE STATEMENT - iviewit Technologies, Inc. formerly Iviewit Holdings, Inc. with Proskauer Rose as possible 75% owner and holding patents with no verification that Iviewit Holdings, Inc. fka Uview with all the shareholders has any interest in this company

False and Incorrect Information to auditors approximately eight months into audit.

I am also advised that all detail in these binders was explained to Brian Fox in late March/early April by Erika and that she called him on Monday in advance of our meeting for confirmation that these binders still reside with AA.

2. The roll-forward of equity is contained in the above referenced binders, and this was provided prior to the completion of field work.
3. Your question here requests Attachment A of the 6/11/99 minutes of "LLC". Actually, there are minutes carrying that date for both iviewit.com LLC and iviewit LLC. In each case, Attachment A is a Limited Liability Company Agreement. Since I do not know exactly which company you are referring to, a copy of each such agreement is being sent by mail with a copy of this Fax Memo.
4. Brian Utley's Employment Agreement is in one of the binders under "Attachments".
5. This was answered to Brian Fox in May; in any event, there was never an entity called "uvuevideo.com".
6. The referenced 5% stock offering undoubtedly relates to the Huizenga loan which converted to a 5% equity at the initial \$10 million valuation. This investment initially took place in iviewit LLC and was later translated/transferred to iviewit Holdings, Inc.
7. Erika advised Brian Fox as to this question in approximately May. In any event, this 5% reserved for Employee is in iviewit Holdings, Inc.; it is merely reserved but not issued, and it will be in the form of Class B Common shares.
8. Erika worked for hours with Brian Fox substantiating the Proskauer accrual; she/they did detailed testing, and it should already be in the detailed GL
9. Same answer as to item # 8 immediately above.
10. After Erika effected all Brian Fox's proposed or requested adjustments, she did a minority interest calculation which she delivered to him and which was confirmed by him to her.
11. This is the same as the answer to item #1 above. AA was given all this detail during the field work through 12/31/99. As to Options and Warrants, there were none as at 12/31/99. From the standpoint of expediency, must you roll forward as to these items beyond 12/31/99, in which case would it not be only to a date consistent with the completion of field work rather some later date??
12. Attached is an unaudited, interim Balance Sheet prepared internally, as at 8/31/00. Obviously, in the absence of AA supplying work papers and a beginning trial balance, we were working under a terrible impediment, and the accuracy of the statement is our best estimation and otherwise questionable. That impediment (absence of work papers) has also prevented the Company from filing timely tax returns. Further as to this item, in February 2000, the Company took in \$1 million from Crossbow/Alpine Venture Capital with which it paid bills outstanding as of 12/31/99, and shareholders loans in existence at that time (February) were converted into one year notes.

Ms. Santana, I am dismayed at the state of this audit and the submittal of this previously addressed list at this late date. What's more, I approached Brian Fox early in August with a request of what it would take, from a time and cost standpoint, for AA to review a new Financial Model and Projection completed for iviewit together with our local accountants. This Model needed to be translated from a Modified Cash method to GAP. After I nagged him several times over the course of at least ten days, all he would tell me was to expect your call which never came, and obviously we never got the answer, causing us to arrange to have that work done elsewhere.

AA was selected by iviewit for particular reasons. However, obviously, your firm has five other competitive peer organizations from which to choose, and I believe it behooves all of us to determine whether AA and our Company should remain in this professional relationship.

Very truly yours,

Raymond T. Hersh

Larry,
 The entity structure can be a little confusing. As of right now, here is how it stands

Here's where it gets fun. iViewit.com LLC used to be the operating entity. iViewit.com Inc. came in & took over all of it's assets through a stock swap w/ iViewit Tech. (well, actually the entity that iViewit Tech. took over). iViewit.com LLC still exists because we have contracts in LLC's name. iViewit Tech in its most original form was iViewit LLC. This entity did a asset transfer (I believe) with a new entity - iViewit Holdings (not to be confused with the iViewit Holdings we know now). iViewit Holdings had a name change to iViewit Technologies. Immediately thereafter, iView.com (the original top dog co.) had a name change to iViewit Holdings. Here is the original entity structure:

Let me know if you have any questions! ☺

Dear Mr. Utley:

As you may be aware, Section 2.5 of the Securities Purchase Agreement requires that your company furnish us with unaudited monthly, and quarterly financial statements, a yearly operating plan, as well as audited annual financial statements.

During a recent review of our portfolio company files, we noticed that we are missing certain required documents from Iviewit.com Holdings, Inc.

The documents that are missing are:

1. Monthly unaudited financial statements, including a balance sheet, income statement, and statement of cash flow for the months ended **March 31, 2000** through **October 31, 2000** each in comparative form with the Company's budget for each month and an analysis and report on the financial and operating condition of the Company during each month.
2. Unaudited quarterly financial statements, including a balance sheet, income statement, and statement of cash flow for the quarters ended **March 31, 2000, June 30, 2000 and September 30, 2000** each in comparative form with the Company's budget for that quarter, and an analysis and report on the financial and operating condition of the Company during those quarter.
3. Operating plan for the year beginning **January 01, 2001**.

We understand that you are busy with the day-to-day operations of your Company; nonetheless, we would be grateful if you could send the above-described reports to us as soon as possible.

DEPOSITION AND FOR APPOINTMENT OF A COMMISSIONER**

Defendants, IVIEWIT.COM, INC., IVIEWIT HOLDINGS, INC. and
IVIEWIT TECHNOLOGIES, INC., by and through their undersigned counsel, hereby
move this Court for an Order requiring Kenneth Rubenstein, Esq. as a partner of the
Plaintiff, to submit to the taking of his deposition in New York City, New York and
appointing Esquire Deposition Services in New York City, New York, as a
Commissioner for the taking of the deposition of Mr. Rubenstein and in support of
this Motion would state:

1. That based on the prior testimony of deponents to this matter and the

personal knowledge of the Defendants corporate representative, Elliot Bernstein, Kenneth Rubenstein was involved directly in the providing of services to the Defendants both prior to his employment with the Plaintiff and subsequently during his employ with the Plaintiff.

2. That Kenneth Rubenstein (“Rubenstein”) is an attorney currently employed by the Plaintiff and who works out of the Plaintiff’s New York City offices.

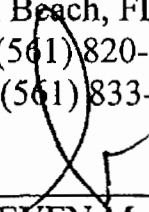

3. That the Defendants intend to take the deposition of Rubenstein in New York City, New York, prior to the trial of this matter due to the knowledge of Rubenstein as to the services provided by the Plaintiff to the Defendants; however, counsel for the Plaintiff has refused to make Rubenstein available as set forth in the attached Exhibit “A”.

4. That Esquire Deposition Services, located at 216 E. 43rd Street, 8th Floor, New York City, New York 10017, should be appointed Commissioner to take the deposition of Rubenstein.

WHEREFORE the Defendants, move this Honorable Court for the entry of an order directing that Kenneth Rubenstein be submitted for deposition and permitting the Defendants to take the deposition of Rubenstein in New York and appointing Esquire Deposition Services, located at 216 E. 43rd Street, 8th Floor, New York City, New York 10017 as Commissioner to take the deposition of Rubenstein.

**PLAINTIFF'S RESPONSE TO DEFENDANTS' MOTION TO COMPEL
TAKING OF FOREIGN DEPOSITION AND FOR THE APPOINTMENT
OF A COMMISSIONER AND MOTION FOR PROTECTIVE ORDER**

Plaintiff, Proskauer Rose LLP ("Proskauer"), responds to the Defendants' Motion to Compel Taking of Foreign Deposition and for Appointment of a Commissioner served under certificate of service dated October 24, 2002 (the "Motion") and further moves, pursuant to Rule 1.280(c) of the Florida Rules of Civil Procedure, for a the entry of a protective order as to the taking of the deposition of Kenneth Rubenstein ("Mr. Rubenstein"), and as grounds states as follows:

1. This is an action by Proskauer to collect unpaid attorney's fees from the Defendants, all former clients of Proskauer.
2. The Defendants' have not alleged, in any pleading, that Proskauer failed to properly perform the work undertaken on their behalf. Notwithstanding Defendants' failure to plead any such allegation, Defendants are now putting forth an eleventh hour attempt to turn this

matter into a malpractice case (and delay the trial of this matter set for the week of December 16, 2002) and are attempting to harass a Proskauer attorney (who lives in New Jersey and works in New York) who never billed any time to the Iviewit matter.¹

3. Specifically, Defendants are attempting to compel Mr. Rubenstein, a partner in Proskauer's New York office, to appear for a deposition. The Motion was filed because Proskauer has refused to produce Mr. Rubenstein for his deposition.

4. The Motion is misleading and misrepresents the discovery in this matter. Citing no particular deposition testimony, Defendants' motion at paragraph 1 states that prior testimony of the deponents in this matter has revealed that Rubenstein was "involved directly in the providing of services to the Defendants. . . ." Nothing could be further from the truth.

5. Contrary to the Defendants' baseless statement that Rubenstein was involved in the representation of Proskauer, Brian Utley, Defendants' former President and Chief Operating Officer, testified in his deposition as follows:

- At Elliot Bernstein's request, Rubenstein recommended another law firm to handle Defendants' patent matters (BU:70-4, 23);²
- "Rubenstein was never involved" in any of the work, and Defendants' interrogatory answers stating otherwise are a "misrepresentation." (BU:84-5, 7, 21);
- "[o]ther than referring Iviewit to [outside counsel], Rubenstein never did any work for Iviewit" (BU:121-3);

¹ Proskauer filed a motion in limine directed to the issue of whether the Defendants can put on proof of any alleged wrongdoing by Proskauer, as the defense was never pled in any of the pleadings in this matter. The motion in limine is set for hearing on November 5, 2002.

² The abbreviation "BU__" followed by a page and line number refers to the transcript of the Deposition of Brian Utley dated August 22, 2002.

- Utley never met Rubenstein (BU:121-19);
- Rubenstein had no active role with Iviewit (BU:138-11, 24);
- “Rubenstein and Mr. Wheeler, I’ll repeat, had nothing to do with the patents and therefore, I object to them being included in the question.” (BU:150-9);

Copies of the pages of the transcript of the Deposition of Brian Utley cited above are attached hereto.

6. Defendants’ eleventh-hour desire to depose Mr. Rubenstein is nothing more than a blatantly transparent attempt to harass Mr. Rubenstein, who billed no time in the Defendants’ representation. Although Defendants plan to take the deposition of Christopher Wheeler, Proskauer’s corporate representative, the Defendants’ intent to harass Rubenstein is further made clear by the fact that the Defendants have never attempted to take the deposition of any of the myriad of Proskauer attorneys who actually did provide legal services for the Defendants.

WHEREFORE, Proskauer respectfully requests that the Court deny the Defendants’ motion to compel Mr. Rubenstein’s deposition, enter a protective order consistent with this motion, and grant any further relief that is reasonable and just.

This 25 day of October, 2002.

Senior Management Biographies

Whereas the Company has retained Korn / Ferry to assist in the identification and recruitment of a high impact Chief Executive Officer (preferably from the media or entertainment industry) and Chief Technical Officer, iviewit has assembled a complementary and seasoned, management team with Fortune 100 and early-stage, entrepreneurial experience. This team consists of the following personnel:

Brian G. Utley, President (67) — For over 30 years, Mr. Utley was responsible for the development and world-wide management of many of IBM's most successful products such as the AS400 and the PC. Entering IBM's executive ranks in the early 1980s, Mr. Utley's impact was felt in all areas of IBM's advanced technology product development, including Biomedical Systems, European Operations, and most importantly, IBM's launch of the Personal Computer. Following the introduction of the PC in the United States, Mr. Utley moved to Europe where he was responsible for a number of IBM's overseas activities including managing the launch of the PC across Europe and the Middle East. His career with IBM culminated with his responsibility as Vice President and General Manager of IBM Boca Raton with a work force of over 6,000 professionals. He is a graduate of San Francisco City College.

False statement - In Utley deposition he admits no degree no graduation.

Eliot I. Bernstein, Founder and Vice Chairman (37) — Prior to founding iviewit, Mr. Bernstein spent 15 years with SB Lexington where he was President of the West Coast Division creating and developing many innovative, computer-based multi-media marketing tools which remain in use supporting multi-billion dollar service industries. Mr. Bernstein is a graduate of the University of Wisconsin.

Michael A. Reale, VP of Operations (60) — Mr. Reale has over 20 years of operations experience, including P&L, quality, and delivery performance accountability. Most recently, Mr. Reale was the Chief Operating Officer for Boca Research (Nasdaq:BOCI), a manufacturer of personal computer enhancement and Internet thin client products. Prior to Boca Research, Mr. Reale spent two years as President of MGV Manufacturing Corp., a premier provider of computer memory assemblies with operations in the U. S. and Europe.

Mr. Reale was also responsible for seven operations in the United States and overseas as Senior Vice President for SCI Systems, Inc., a Fortune 500 electronics contract manufacturer. His operating background also includes twenty years with IBM culminating as Director of Manufacturing for the Personal Computer Division. Mr. Reale received his BA and MBA from Pace University.

Raymond T. Hersh, Vice President of Finance (58) — Mr. Hersh is a private investment banker, specializing in strategic development. He has over 35 years of successful business and operating experience involving financial services, telecommunications, manufacturing, and corporate strategic planning. For over 20 years, Mr. Hersh has operated and grown companies in Florida, and most recently, he was co-founder and President/CEO of New Medical Concepts, Inc., a telecom company specializing in providing healthcare information. He successively grew two Florida-based specialty manufacturing companies from combined revenues of about \$2.7 million to over \$19 million. Mr. Hersh also spent nine years as an investment banker in New York City where his last position was President of a member firm of the New York and American Stock Exchanges. Earlier, he spent five years as an Enforcement Attorney with the U. S. Securities and Exchange Commission in New York City where he exited as a Branch Chief. He is a member of the New Jersey and New York Bars. Mr. Hersh received his BA from Lafayette College and his LLB/JD from the University of Pennsylvania.

Kevin J. Lockwood, Vice President of Sales and Business Development (40) — Mr. Lockwood joins iviewit from Cylex Systems where he held the position of Executive Vice President of Sales and assisted in securing three rounds of funding exceeding \$20 million. He also was instrumental in developing a distribution channel as well as signing accounts such as Outsourcing International, Tampa General and a significant seven-year contract with Best Buy Corporation. He also held the position of Head of Sales for Acer America, Inc. where he increased sales from a run rate of \$150 million annually to over \$1.5 billion annually in only a 17-month time. In addition, Mr. Lockwood successfully launched the Fujitsu P.C. into the U.S. and in the first year amassed revenues of over \$200 million. He is a graduate of the University of Maryland with a Bachelor of Science degree in Business Administration.

Guy Iantoni, Vice President of Sales (35) — Prior to joining iviewit in 1999, Mr. Iantoni was Senior Financial Representative with Fidelity Investments. From 1995 to 1997, he served as an Investment Management Consultant to the private client group of Morgan Stanley Dean Witter & Company, Inc. Prior thereto, Mr. Iantoni spent four years with Eli Lilly and Company creating and implementing many direct marketing and sales campaigns for the healthcare industry. He has developed computer databases and systems to effectively market and target segments in both the financial markets and the healthcare industries. Mr. Iantoni is a graduate of the University of Wisconsin with an advanced degree in Pharmacy.

**Board of
Directors**

**Simon L. Bernstein – Chairman Emeritus
SB Lexington**

Mr. Bernstein has pioneered the development of proprietary life insurance products and has formed two companies to facilitate the sales of these products. Mr. Bernstein developed for both companies a national sales and marketing network, which now account for over a billion in life premium sales. Mr. Bernstein's career in the life insurance industry began in 1965 when he became the top producer for Aetna Life and Casualty Company. He has remained in the top 5% of life insurance sales agencies since that time. Mr. Bernstein supplied the initial "angel" investment for iviewit.

Not yet. I will work out a meeting time over the next couple of days. I was looking at the profile of Ken Rubinstein at Proskauer, very impressive! Is he the person that reviewed your patent application? Ken appears to be the person behind setting up the MPEG patent pool. Xing is a licensee under this. Do you mind if I e-mail Ken questions about the nature of the patent? Also, I have not heard from Goldman.

This project is very exciting to me. I keep thinking about the possibilities. Hopefully you, Kevin and I can meet over the next couple of weeks so we can accelerate our activities. How are you doing setting up the demo to view over the Internet? My home number is 805-594-0292 if you want to talk.

Gentlemen:

At the request of Alan Epstein, I am forwarding the enclosed Confidentiality Agreements to you. I would appreciate your signing and returning your Agreement to me.

We have undertaken representation of iviewit, Inc. ("iviewit") and are helping them coordinate their corporate and intellectual property matters. In that regard, we have reviewed their technology and procured patent counsel for them. We believe the iviewit technology is far superior to anything presently available with which we are familiar. iviewit has filed a provisional patent application on a method for providing enhanced digital images on telecommunications networks. We are advised by patent counsel that the process appears novel and may be protected by the patent laws. While in all matters of this sort, it is far too early to make any final pronouncements. We do believe that there is an extremely good prospect that iviewit will protect their process which is novel and superior to any other format which we have seen.

Sincerely,

Christopher C. Wheeler

Why is Wheeler a real estate attorney, not licensed with the United States Patent & Trademark Office making opinion for the Intellectual Property Group headed by Rubenstein? Does their malpractice policy allow for this from a real estate lawyer?

CONFIDENTIALITY AGREEMENT

The undersigned acknowledges and agrees that any and all "Proprietary Information" provided by or on behalf of iviewit, Inc. (together with its direct and indirect subsidiaries and affiliates, the "Company"), Simon L. Bernstein, Eliot I. Bernstein, or any officer, director, employee, agent or representative of the Company to the undersigned, or to which the undersigned otherwise gains access to, shall be subject to the terms and conditions of this Agreement. "Proprietary Information" means all materials and information (regardless of the form of such information, including without limitation, in writing, electronic, computerized, or other recorded form, oral or visual) that the undersigned may receive or learn of now or in the future concerning, or related in any way to, the Company or its business, including without limitation: (i) the contents of any Business Plan, projections or financial or credit information or data relating to the Company; (ii) the contents of any manuals or written materials of the Company; (iii) the names and records of actual or prospective clients, customers, suppliers, lenders, financing sources, or related persons; (iv) the terms of various agreements between the Company and third parties; (v) any data or database, or other information compiled or developed by the Company; (vi) any computer programs and listings, source codes and/or object codes, file structures, trademarks, trade secrets, patents, patent designs, patent applications, copyrights, forms, procedures, processes, training methods, developments, technical information, marketing activities and procedures and methods of operation, together with any other information, data, know-how or knowledge of a confidential or proprietary nature; and (vii) any information of a type described above derived or obtained from the internet or any website of the Company, including without limitation, the file structure relating to such website or the content of such website. Notwithstanding the foregoing, the term "Proprietary Information" does not include information which (i) is already known to the undersigned or in the undersigned's possession (other than that which was furnished to the undersigned by or on behalf of the Company prior to the date of this Agreement), (ii) is or becomes generally available to the public other than as a result of a disclosure by the undersigned, or (iii) becomes available to the undersigned on a non-confidential basis from a source other than the Company or its representatives, provided that such source is not known, after inquiry, to be bound by a confidentiality agreement with, or other obligation of secrecy to, the Company.

The undersigned acknowledges that the Proprietary Information constitutes valuable, special and unique assets of the Company. The undersigned agrees (a) to receive in trust, and treat as confidential, the Proprietary Information; (b) not to use any of the Proprietary Information for any purpose without the prior written consent of Simon L. Bernstein or Eliot Bernstein; (c) not to disclose any of the Proprietary Information to anyone (other than to such of the undersigned's advisors who have a need to know such Information for the sole purpose of assisting the undersigned in evaluating such Information; provided that the undersigned shall be liable for any breach of confidentiality or use by such advisors) without the prior written consent of Simon L. Bernstein or Eliot Bernstein; and (d) not to reproduce, fax, distribute, store, reverse engineer or copy any Proprietary Information in any form without the prior written consent of Simon L. Bernstein or Eliot Bernstein. The undersigned understands that all Proprietary Information is confidential and that all rights, title and interest in the Proprietary Information is and shall remain the exclusive property of the Company, and no license or other rights are being granted to the undersigned by the Company.

The undersigned further agrees that the Company shall be entitled to equitable relief, including injunction, in the event of any breach of this Confidentiality Agreement, that the granting of such relief will not be opposed and that such relief shall not be the exclusive remedy for such breach. Furthermore, the undersigned agrees to defend and hold harmless the Company from any loss, cost, expense (including attorney's fees and litigation expenses), claim, liability, or damage arising from or related to a breach of this Confidentiality Agreement.

The undersigned has executed this Confidentiality Agreement as of the date set forth below.

Dear Brian:

Brian in deposition states he never used Wheeler as Advisor or Patent Counsel. Similar statements under deposition made by Wheeler and Rubenstien, as well as, to State Bars of New York and Florida.

Attached is a draft letter I would like to send to Pacific Capital Group (the company which founded Global Crossing), Waterview Partners (a \$240 million venture fund founded by Frank Biondi, the former chairman of Universal Pictures) and KPE (New York-based venture and service firm focusing on entertainment industry internet applications). I would very much appreciate your reviewing the letter for accuracy as soon as possible and providing me with your comments.

Best regards.

Re: iviewit.com

Dear Gregg:

I very much enjoyed meeting you for lunch earlier this week. As promised, enclosed is a copy of the Business Plan for our client, iviewit.com.

Iviewit has developed two proprietary and complimentary technologies to enhance video and images delivered on the internet. The first is a state-of-the-art technology which enables full-screen, full-frame rate (i.e., 30 frames per second) streaming video to be viewed by any internet video player at bandwidths as low as 150 kbps, with increased quality and reduced file size. The second digital imaging technology creates an opportunity for full screen still images and 360° panoramic views that can be magnified with minimal image distortion.

Iviewit has protected its technologies by filing and securing eight patent pending applications, and is currently buffering and expanding those patents through a significant supplemental filing. Iviewit is represented by several of the most prominent patent law firms and attorneys in the world. Bill Dick, who is the head of the intellectual property department of Foley & Lardner in Milwaukee, Wisconsin, was formerly in charge of IBM's foreign patent division. Mr. Dick and his patent team of attorneys are preparing all of iviewit's supplemental patent filings and are drafting all of iviewit's license agreements.

Iviewit's potential patent litigation (if any) will be handled by Ken Rubenstein, who is the head of intellectual property litigation group at the law firm of Proskauer Rose in New York City. Mr. Rubenstein is in charge of all patent litigation on behalf of the MPEG patent pool, in addition to a number of other high-profile technology litigation matters.

Mr. Gregg W. Ritchie
May 19, 2000
Page 2

Iviewit has licensed its technology and providing services to a number of substantial clients, such as hollywood.com, broadway.com, Hyatt Hotels and Resorts, and Great Expectations Dating Service. Iviewit also is in final negotiations to license its technology to playboy.com, medicalonline.com (x-rays, MRI's CT-scans, etc.) americanenterprise.com (multi-hour surgical and educational videos), gregmanningauctions.com (one of the largest auction houses) and many other clients in the entertainment, health care, automotive and other industries.

Iviewit initially raised \$500,000 of seed capital from Wayne Huizenga's venture group (at a \$10 million post-money value). Within the last few months, Iviewit raised \$1.5 million in a Series A round at a \$25 million post-money valuation from an investment group led by several individuals who previously ran Merrill Lynch's venture division. Iviewit is currently seeking an additional \$1-\$2 million in the Series A round, with a Series B round (\$10 million minimum) to follow later this year. The proceeds will be used to provide working capital (including the leasing/purchase of equipment and facilities) which will enable iviewit to fulfill its substantial backlog of orders and to expand its licensing operations. Iviewit is currently in discussions with several of the nation's leading investment banks to lead the Series B fundraising efforts.

The iviewit technology is most easily explained through a demonstration. If Pacific Capital or its Venture Group are interested in learning more about the company, please let me know and I will arrange to have the principals fly to Los Angeles for a meeting. Although you can see some of the company's technology and applications on the website (www.iviewit.com), the highest-quality work is not available for public viewing and is best seen through a private demonstration.

I look forward to hearing from you.

Best regards.

Very truly yours,

Alan J. Epstein

Enclosed is a copy of iviewit's Patent Portfolio binder.

Why is the guy with the single largest conflict to Iviewit shareholders receiving the entire Iviewit patent portfolio and claiming he does not know us? Tying Rubenstein to the Company exposes the Conflict and thereby should result in MPEG and other patent pools infringing because of this conflict, immediately paying Iviewit for use and past use of such technologies.

Executive Summary

Introduction

iviewit Holdings, Inc. (herein after "iviewit" or "the Company") is a developer and provider of several breakthrough proprietary platform audio and visual technologies, supporting the infrastructure of the Internet. The Company has developed and launched three breakthrough technologies – video/audio streaming and image enhancement -- that enable (1) full-screen, full TV frame rate, full-motion video including stereo quality audio, (2) full screen high definition pictures that have "scan, pan and zoom" capabilities with a zoom technology never before seen and (3) high fidelity audio streams at low bandwidths. These technologies allow, for the first time, a rich and full Internet experience and virtual environment any time a b2c (Business to Consumer) or b2b (Business to Business) Internet application can be enhanced by or requires a video, audio or photographic presentation. By virtue of its enabling technologies, iviewit is leading the advancement of multi-media applications for websites both in streaming video/audio and imaging following the first demonstration of its proprietary technologies in 1998. Since that time, iviewit has refined its several (Patent Pending) processes to transform these breakthrough technologies into consistently deliverable and commercially accepted Internet solutions.

Company

Founded in 1999, **iviewit** has raised over \$3 million of equity capital, which has enabled it to develop, test and commercially launch its visual Internet infrastructure technologies. Initial, key management is in place, and the Company has successfully passed through its technical validation phase to ensure that its technology is fully reproducible and reliable. **iviewit** then identified several market sectors to emphasize, and it has targeted key early stage customers in order to gain recognition and commercial acceptance. The company has formed strong strategic alliances and partners in both the Internet and Multimedia spaces.

iviewit is engaged in the application of these exciting and new visual and audio technologies for the use by content providers of all types and consumers to make their experience over the Internet dynamic and real. **iviewit's** business model is to:

- license its proprietary video/audio streaming and imaging technologies for the processing, encoding, managing and specialized web-hosting of source material and content where multi-media Internet distribution is required
- develop image and branding for its technology backbone capabilities
- identify and develop expanded vertical sector marketing and new applications

- expand its scaleable processing capabilities on a production-controlled basis
- create a service bureau to compliment the licensing model and provide customers with image and video processing, hosting and serving services
- launch broad-based promotion and marketing campaigns through advertising, trade shows and key customer references
- confirm **iviewit** as the industry Gold Standard in supplying leading edge, multi-media visual and audio streaming and imaging infrastructure and tools for the Internet

The Company commercialized in the second quarter of this year and as of June, has its initial customers including: Hyatt Hotels, Hollywood.com, Broadway.com, Gear Magazine and Ellen DeGeneres, among many others. The company estimates that the combined, annualized revenues of these initial customers will reach approximately \$4 million dollars once they are implemented and ramped to present customer expectations. Such revenues will exceed **iviewit's** first year expectations. As **iviewit** secures its next round of funding, the Company will aggressively accelerate the implementation of its product licensing and service plan.

Proprietary Technologies

iviewit has developed three complementary technologies to enhance videos, audio and images delivered over the Internet:

1. State-of-the-art, proprietary technologies, enabling full motion/full screen/full frame rate, high quality, distortion-free streaming video and audio to be viewed by any internet video player at amazingly low bandwidths, with extraordinary quality and reduced file sizes. Broadband and modem users can see streaming video with virtually no download time required.
2. State-of-the-art, proprietary technologies, enabling CD quality audio that can be listened to using any internet video player at amazingly low bandwidths, with extraordinary high fidelity sound quality and reduced file sizes.
3. A digital imaging technology creating the opportunity for full screen still images and panoramas that can be zoomed and manipulated, distortion-free, in a virtual environment with almost unlimited magnification.

Changing the Internet Landscape with iviewit Technologies

Video and Audio Streaming

Until now, the delivery of video content over the Internet was substantially text-based, and attempts to transmit video content over the Internet have been marred by long downloads, small image size, reduced frame rates and poor quality. Reducing the bandwidth time it takes to transmit files usually has meant delivering a picture that appears herky-jerky and out of sync with the sound. Providing video that is comparable with television (full motion/full screen/full frame rates), on the other hand, typically has been impossible because of the large file sizes resulting in the need for over 2 T1 lines of bandwidth to watch a single video. Trying to squeeze television-quality video files into sizes that can be transmitted on the Internet proved elusive accompanied by severe limitations, such as the requirement for costly and often unavailable bandwidth. State of the art video even for high bandwidth users (ISDN, DSL, Cable, T1 and Fiber) remained framey and out of sync.

As recently as December 1999, a leading Internet news publication, The Industry Standard indicated that the Internet speed required for Television-like quality video would not be possible until the 700+ Kbps range was reached and that "nowhere in the tech world have there been more unfulfilled promises than in the realm of next-generation television." **iviewit's** video technologies have bridged the gap by enabling distortion-free, TV quality video frame rates with CD quality audio in the 150+ Kbps range, considered optimal for delivering broadcasts over the Internet. **iviewit's** video technologies also greatly enhance the modem users experience, providing a far richer video than previously thought possible.

Meanwhile, there is enormous content that has been created for television that is ready for conversion to an Internet application, and the proliferation of new bandwidth capacity via DSL, cable and satellite is finally providing an environment whereby **iviewit's** breakthrough technologies can easily be adopted and utilized. **iviewit** believes that there is virtually unlimited growth opportunity for its proprietary visual Internet backbone technologies. As a matter of fact, Bill Gates recently stated that "streaming media is the fastest moving part of the whole digital world."

Imaging

iviewit's imaging process allows computer users to drive into single or panoramic images in a brand new "pan, scan & zoom" environment seamlessly magnifying on any portion of the image at zoom levels never before imagined (20:1+). This breakthrough technology will have far reaching impact as it applies to any photograph that the user wants to enhance. Applications for **iviewit's** technologies are endless.

Benefits of iviewit Technologies

The principal benefits of **iviewit's** enabling Internet infrastructure technologies follow:

- the technologies significantly enhance the image quality of any video content streamed over the Internet regardless of which media and sound player is utilized
- the technologies allow high quality video streaming in the 150+Kbps ranges, providing better product and price performance for the product delivered and a tremendously improved result at the 28-150Kbps ranges
- the image technologies enhance the ability to view photographic images on the Internet by providing incredible "scan, pan & zoom" enriching the end user experience
- improved audio stream capabilities at both high and low bandwidths

Management

iviewit has established a strong, experienced key management team, supported by a Board of Directors representing broad management and industry experience, including developing technologies, dealing with patent and business legal issues, financing start-up companies and preparing companies for IPOs. Searches are currently under way to complete the executive management team by the addition of a CEO, a CFO and a Sr. V.P. Marketing and Sales.

iviewit also has top Legal Counsel and Business Consultants who bring an extensive knowledge base, business connections and experience to the development of **iviewit**.

Market Penetration Strategy & Launch

iviewit has secured initial contract agreements with Hyatt Hotel & Resorts, Hollywood.com, Broadway.com, @merican enterprise.com, JM Lexus, Gear Magazine (Guccione Media), Great Expectations Dating Service and Kids Camps. In addition, **iviewit** is currently negotiating with major corporations such as Time Warner, Universal Studios, MGM, MTV, 3Com, Playboy, and CBS Sportsline.com. The response to the technologies and licensing cost has been positive. While **iviewit's** enabling technologies are applicable across a wide spectrum of Business to Business (b2b) and Business to Consumer (b2c) Internet sites, **iviewit** will concentrate its early initiatives in the following areas: Advertising, Entertainment, Health Care, Hotel and Resorts, Luxury Items, Executive Search, Sports, Modeling, and Dating Services.

iviewit plans to highlight its video streaming enabling technologies with high profile websites and events, tradeshows in targeted markets, and conventions. Currently the Company has established a relationship with Ellen DeGeneres, Tidal 4, Z.Com.

Hollywood.com and Broadway.com. These accounts currently provide significant branding of the **iviewit** process with watermarking, logos and personal testimonials.

Intellectual Property

iviewit has protected its enabling technologies by filing five patent pending applications in both the United States and abroad for its video streaming and imaging capabilities, covering a wide array of enabling technologies. The Company also has an additional five remaining Provisional Patent Pending applications that will be converted to patent pending status within the allowable period.

These technologies carry broad claims, where patent searching on several key components has revealed no apparent prior art or conflicting technologies. This gives **iviewit** not only strategic advantage and potential exclusivity in this space, but also the opportunity to license its proprietary technologies on a current and ongoing basis.

iviewit has adopted a two-pronged approach to building an extensive patent portfolio: (1) **iviewit** plans to continue aggressively developing and seeking patent protection for its own proprietary technologies; and (2) **iviewit** will further seek to improve upon existing technologies as these technologies come to the market.

iviewit believes that the processes underlying these inventions are unique and novel, and it has retained Foley & Lardner, one of the most reputable patent law firms in the United States to shepherd its patent development and procurement. In addition, **iviewit** has retained Kenneth Rubenstein of Proskauer Rose LLP to oversee its entire patent portfolio; Mr. Rubenstein is the head of the MPEG-2 patent pool.

Financial Summary and Investment Opportunity

iviewit has raised \$3 million of equity capital to date, including venture funding received in September 1999 from Huizenga Holdings, Inc./Investech Holdings LLC. Huizenga Holdings is controlled by Wayne Huizenga, a successful industrialist best known for starting Waste Management, Blockbuster Video, Auto Nation, Boca Resorts and the owner of major sports teams such as the Miami Dolphins football team, the Florida Marlins baseball team and the Florida Panthers hockey team.

Second round funding has been received from Crossbow Ventures/Alpine, a significant private investment fund, located in Palm Beach and Geneva. Crossbow's management includes the prior senior infrastructure of Merrill Lynch Ventures. CrossBow's industry focus corresponds to the tremendous growth that Internet-related companies are experiencing. Their well-balanced portfolio includes companies in technology, telecommunications, healthcare and environmental services sectors.

iviewit is presently seeking two investment tranches. The first and most imminent will be a \$2-3 million equity bridge leading to a significant capital raise of \$20 million to be achieved by the fourth calendar quarter of 2000.

Potential exit strategies for **iviewit** investors may include any one, or a combination, of the following opportunities: IPO, partner with a major company or acquisition.

Strategic Business Plan

Company

iviewit Holdings, Inc. located in Boca Raton, Florida, was formed in July of 1999 under the laws of the state of Delaware. **iviewit** was formed to research, develop, license and sell its enabling proprietary Internet based visualization products and services to the e-commerce market through it's wholly owned operating subsidiary **iviewit.com, LLC**.

Over the past year, **iviewit** has confirmed the efficacy and reliability of its technologies for commercial exploitation, initiated digital imaging production, established a demonstration web site, developed initial key management infrastructure and hired an initial sales staff. The Company publicly launched its platform technologies early in 2000, and, as of May 2000, has initial high profile customers that have confirmed the commercial value of **iviewit's** technologies. **iviewit** is presently seeking additional financing to support further commercialization and realize the full potential of its products and technologies.

Product Applications

iviewit's impressive visual media products are the result of several years of development focused on the entire process of image/video delivery over the Internet. Care has been taken to be platform agnostic to preserve the broadest possible range of applications and retain the highest viewing audience. **iviewit's** suite of video and imaging technology processes work across all industry platforms, meaning that **iviewit's** video process will enhance and work with Microsoft's Media Player, Apple Quicktime and Real Networks players. **The result is industry leadership products that do not require special downloads or equipment.** A recent survey indicated that over 90% of site visitors simply "move on" when required to download special software to view pages content. **iviewit** processes are proprietary and protected as Trade Secrets and Patent Pending applications filed with the U.S. and International patent offices. While video streaming and imaging are treated separately, it should be noted that they are complementary both from a process point of view and from a customer perspective. Many potential markets have both requirements such as the entertainment industry, resort and hotel industry and the health care industry. **iviewit** views the combination of these products as a suite to be an integral part of its sales portfolio.

Attention: Marc R. Garber, Esq.

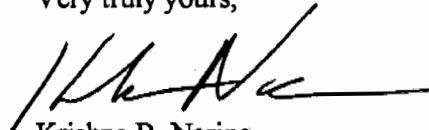

Dear Marc:

As we discussed earlier, it is acknowledged that our law firm's retirement plan was administered by MPDA, formerly an affiliate of Flaster Greenberg. We also acknowledge that in the MPDA engagement letter our law firm also engaged Flaster Greenberg for legal work related to the retirement plan.

Several months ago Flaster Greenberg sold the MPDA business, with the result of a company called Manchester (unrelated to Flaster Greenberg) taking over the plan administration work of our retirement plan. Thus, we hereby acknowledge that we are a former client and not a current client of Flaster Greenberg.

While we don't believe there to be a conflict, we hereby consent to Flaster Greenberg's representation of Iviewit with respect to the Letter of Understanding with Schiffrin & Barroway, LLP.

Very truly yours,

Krishna B. Narine

Re: Iviewit and Schiffrin & Barroway, LLP - Letter of Understanding

Dear Eliot:

In response to the proposal set forth in your letter of July 6, 2003, and with consideration of our conversation on July 7, 2003, Schiffrin & Barroway, LLP ("SB") proposes the following terms which will become effective as of the date this letter is signed by both parties. SB will make a capital contribution to a newly formed entity ("NewCo") that will acquire ownership of the "Iviewit Patents". SB will make additional capital contributions and loans to NewCo and Iviewit Holdings, Inc. ("Iviewit") in the form of the contribution of legal services and payment of legal fees owing to patent counsel and other counsel. SB will make the payment of expenses related to the operation of NewCo and Iviewit Holdings, Inc. to, *inter alia*, prosecute and develop the Iviewit Patents, prosecute infringers of the Iviewit Patents, and prosecute and defend Iviewit and NewCo against claims by and between Iviewit Holdings, Inc., its subsidiaries and affiliates and its former officers, directors and attorneys:

1. SB will purchase for a \$100,000 capital contribution a 21% voting membership interest in NewCo, a newly formed limited liability company, subject to NewCo's entering into an agreement to purchase from Crossbow/DiStream its interests in Iviewit, including Crossbow/DiStream's debt claims and security interests in all assets of Iviewit and NewCo's acquisition of ownership of the "Iviewit Patents."
2. In consideration of the other commitments described hereafter, SB will receive an additional 24% voting membership interest in NewCo and, by assignment from existing shareholders, 21% of voting equity shares in Iviewit.

Letter to Eliot Bernstein

July 15, 2003

Page 2

3. In further consideration of foregoing grants of membership and stock assignments by NewCo, SB shall provide the following services and assume the following obligations for NewCo and Iviewit:
 - a. Retain, assist and compensate patent counsel for all costs and expenses (acknowledging the funding of the estimated minimum cost of approximately \$250,000), to correct and prosecute all of Iviewit's pending U.S. and foreign patent applications, and to obtain valid U.S. and foreign patents for Iviewit's proprietary technology and inventions;
 - b. Prosecute to judgment or settle malpractice and other claims against Proskauer Rose LLP, Foley and Lardner, and Meltzer, Lippe, Goldstein, Wolfe & Schlissel, P.C., including the payment of all necessary costs and expenses, provided, however, that NewCo or Iviewit, as the case may be, will be responsible for payment of such costs and expenses incurred after monies are recovered and received pursuant to paragraph 5, and are available for such use as determined solely by the CEO or Board taking into account the attached operating budget and cash needs of Iviewit and NewCo for business operations purposes, as determined solely by the CEO or Board;
 - c. Prosecute actions to enjoining and recover damages for unauthorized use of Iviewit's proprietary technology and inventions and obtain compensation for use of the same through enforcement of existing Non-Disclosure Agreements and prosecution of patent infringement actions, including payment of all necessary costs and expenses, provided, however, that NewCo or Iviewit, as the case may be, will be responsible for payment of such costs and expenses incurred after monies are recovered and received pursuant to paragraph 5, and are available for such use as determined solely by the CEO or Board taking into account the attached operating budget and cash needs of Iviewit and NewCo for business operations purposes, as determined solely by the CEO or Board;
 - d. It is contemplated that the operating expenses of NewCo and Iviewit shall be funded through the proceeds of recoveries on the claims described in 3.b. above; provided, however that if such proceeds are not available, SB agrees to contribute capital to NewCo and Iviewit to pay ordinary operating expenses as set forth in the attached budget, which shall include actual legal fees and costs for effecting transfer of title to Iviewit patents to NewCo and creating NewCo. Notwithstanding the foregoing, SB shall not be responsible to provide operating expenses if such operating requirements are available through the NewCo and Iviewit revenues. Iviewit shall be maintained as an entity to pursue the claims described in paragraph 3.b. above; and

- e. Prosecute actions to recover the 15% of Iviewit stock from certain individuals, to be identified by Iviewit, who were involved in malfeasance against the company, of which 33-1/3% will go to SB and 66-2/3% will be split in the following manner:

Eliot I. Bernstein - 40% of 66%

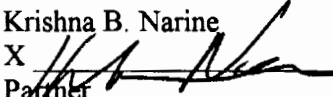

Isa S. Welsch - 25% of 66%

Caroline Prochotska Rogers, Esq. -25% of 66%

Other Shareholders - 10% of 66%

4. SB shall have full authority with respect to prosecution and resolution of the claims set forth in paragraph 3.b. above, including Proskauer Rose LLP's lawsuit for non-payment of legal fees, and with respect to the engagement of legal counsel and consultants, whether such claims are prosecuted and resolved through negotiation, litigation, or any other method SB deems appropriate.
5. All proceeds received from the resolution of the claims set forth in paragraph 3.b. or 3.c. will be distributed to Iviewit and NewCo, less any contingent fee not to exceed 33% owed to any law firm, other than SB, retained to pursue such claims.

The undersigned with due authority to bind Schiffrin & Barroway, LLP and Iviewit Holdings, Inc. respectively, have executed this document on this day of July 15, 2003.

Dear Mitchell & Isa Welsch,

Per our agreement, it is my understanding that if the Schiffrin & Barroway, LLP deals closes that you will receive a 12.5% voting equity interest in total in Iviewit or any new Company that is created as a result to be inclusive of any current shareholdings. It further is agreed that Schiffrin & Barroway, LLP for covering all the costs for the following list of items below will receive up to 50% voting equity, which includes the amount of interest purchased from Crossbow/Distream. Further, it is understood that the Crossbow/Distream interest of 21% will be purchased at a cost of \$100,000 or \$200,000 for 29% as to be negotiated between Iviewit and Schiffrin & Barroway, LLP and further that any/all DiStream/Crossbow interest will be converted to equity. Monies raised or earned vis-à-vis any litigation will flow to the Company and be distributed according to future agreement on the terms.

Cost included to be;

- Patent re-writes non-discretionary at a minimum of \$250,000
- Proskauer Rose litigation
- Foley and Lardner litigation
- Meltzer Lippe Goldstein & Schlissel litigation
- NDA litigation and Patent Infringement litigation
- Operating cost to include Eliot Bernstein and P. Stephen Lamont
- Schiffrin & Barroway, LLP to recover stock from anyone involved in malfeasances to be put back into company and split equally amongst Schiffrin & Barroway, LLP and other stock group
- 15,000 of Corporate restructuring costs for new company non-discretionary, if a new company is executed

As always, with best regards,

CIVIL ACTION NO. _____

COMPLAINT FOR FRUSTRATION OF CONTRACT

COMES NOW the Plaintiff, **P. STEPHEN LAMONT** (“**LAMONT**”), and hereby **sues Defendants, PROSKAUER ROSE LLP** (“**PROSKAUER**”), **MELTZER, LIPPE & GOLDSTEIN, LLP** (“**MLG**”), **FOLEY LARDNER LLP** (“**FOLEY**”), **SCHIFFRIN & BARROWAY, LLP** (“**SB**”), and **BLAKELY SOKOLOFF TAYLOR & ZAFMAN LLP** (“**BSTZ**”).

FACTUAL ALLEGATIONS

1. This is an action for specific performance and damages in a sum greater than Fifteen Thousand Dollars (\$15,000.00), exclusive of interest, taxable costs, and attorney’s fees.

2. Plaintiff, LAMONT, is a sui juris individual and resident of Brewster, Westchester County, New York, and Chief Executive Officer of Iviewit Holdings, Inc. ("Iviewit"), a Delaware corporation.
3. Upon information and belief, defendant PROSKAUER is a New York limited partnership.
4. Upon information and belief, defendant MLG is a New York limited liability partnership.
5. Upon information and belief, defendant, FOLEY is a Wisconsin limited liability partnership.
6. Upon information and belief, defendant SB is a Pennsylvania limited liability partnership.
7. Upon information and belief, defendant BSTZ is a California limited liability partnership.
8. That beginning on or about August 2001, LAMONT held discussions with Microsoft Corporation, a Delaware corporation based in Redmond, Wash. for a variety of digital entertainment positions.
9. That during such discussions, Microsoft executives stated "the best way for us to start a relationship would be for you to talk to Iviewit, as they have some problems, and once you fix them, come back and we will talk. You can find them through Chuck Brunelas on www.monster.com," or words to that effect.
10. That LAMONT contacted Chuck Brunelas and Chuck Brunelas notified LAMONT of Iviewit's ongoing search for a Chief Executive Officer.

11. That LAMONT held additional discussions with Eliot I. Bernstein ("Bernstein"), founder of Iviewit, and David Colter, an Advisory Board Member of Iviewit and then Vice President, Advanced Technology of Warner Bros., a unit of Time Warner Entertainment, L.P.

12. That Iviewit offered the position of Chief Executive Officer and LAMONT accepted same according to an executed employment agreement, as amended, ("Agreement") a true copy of attached herein as Exhibit A.

13. That according to the Agreement, Iviewit awarded LAMONT a base salary of One Hundred Seventy Five Thousand Dollars (\$175,000) per annum and stock options to purchase ten percent (10%) of the common stock of Iviewit.

14. That Bernstein engaged the services of PROSKAUER to provide legal services to Iviewit, including corporate formation and governance for a single entity and to obtain multiple patents and oversee U.S. and international filings for such technologies including the provisional filings for the technologies ("Technology"), and such other activities as were necessary to protect the intellectual property represented by the Technology.

15. That PROSKAUER, rather than pursuing the corporate formation and governance for a single entity, proceeded to engage in fraud and deceit by the corporate formation of multiple entities in a multi-tiered structure.

16. That PROSKAUER by their formation of multiple entities in a multi-tiered structure, additionally engaged, effectively, in a "shell game" as to which entity and under what structure would hold assignment of the Technology from Bernstein and others.

17. That as part and parcel of their engagement agreement, a true copy attached herein as Exhibit B, Bernstein awarded PROSKAUER a two and one-half percent (2.5%) equity ownership position ("Proskauer Equity") in an initial company by the name of Iviewit, Inc., a Florida corporation.

18. That subsequent to the offer and acceptance of the Proskauer Equity, PROSKAUER proceeded to move the Proskauer Equity into a position, by the formation of a multiplicity of entities, and name changes so as to give the appearance of assignments of the Technology to Iviewit, whereby, factually, the assignments of the Technology reside in a company ("Patent Company") in which PROSKAUER holds the Proskauer Equity, and rather than Iviewit.

19. That as a result of this "shell game" conducted by PROSKAUER, upon information belief, Iviewit holds no ownership interest in the Patent Company.

20. That such effective engagement by PROSKAUER in fraud, deceit, and "sham" entities, thus constituting a "shell game," such action frustrates the purpose of the Agreement.

21. That MLG, PROSKAUER, FOLEY, SB, and BSTZ further conspired to deprive Iviewit of its rights to the technologies developed by Bernstein and others, and equally frustrating to Plaintiff's Agreement, by:

- a. Aiding MLG in filing patents, according to a certain engagement agreement attached as Exhibit C, for Iviewit intellectual property by intentionally withholding pertinent information from such patents and not filing same timely; and

- b. Failing to list proper inventors of the Technology based on improper legal advice that foreign inventors could not be listed until their immigration status was adjusted, resulting in the failure of the patents to include their rightful and lawful inventors; and,**
- c. Failing to ensure that the patent applications for the Technology, contained all necessary and pertinent information relevant to the technologies and as required by law; and,**
- d. Upon discovery of the "lapses" by M.L.G., that PROSKAUER referred the patent matters to William J. Dick, upon information and belief a sui juris individual and resident of Hyfluxo, Palm Beach County, Florida and who at all various times relevant hereto was of counsel to FOLEY and who provided legal services to Iviewit ("Dick"), according to a certain engagement agreement attached as Exhibit D; and**
- e. Transferring patents using FOLEY so as to name Brian G. Utley, former President & Chief Operating Officer of Iviewit ("Utley") as the sole holder of multiple patents in his individual name and capacity when in fact they were and arose from the technologies developed by Bernstein and others and held by Bernstein and others prior to Utley's employment with Iviewit, and;**
- f. Allowing the infringement of confidentiality agreements of Iviewit and the intellectual property of Bernstein and others by other clients of PROSKAUER; and,**

- g. Influencing BSTZ, according to an engagement agreement attached as Exhibit E, to fail to repair the inventorship issues described in subparagraph b above.**

22. That on July 15, 2003, Bernstein and SB executed an engagement agreement ("SB Agreement"), a true copy of which is attached herein as Exhibit F, that provided for, *interalia*, the prosecution to judgment or settlement of many, if not all, of the claims against PROSKAUER, MLG, FOLEY, and BSTZ described above as well as funding of Iviewit's operations in the approximate sum of Two Million Dollars (\$2,000,000), since unilaterally canceled by SB.

23. That LAMONT is in privity for purposes of bringing this complaint against Defendants, in that the Agreement individually names LAMONT as a party to and beneficiary of the fortunes of Iviewit since disparaged by Defendants.

24. That LAMONT is an intended beneficiary of the fortunes of Iviewit, under the Agreement as the Restatement Second of Contracts recognizes: (i) LAMONT's recognition of Defendant's commencement of performance is appropriate to effectuate the intention of the parties; and (ii) the circumstances of the Agreement indicate that Iviewit intends to give LAMONT the benefit of the fortunes of Iviewit.

25. That under common law as well as decisional law where courts have held that individuals in the position of LAMONT are in privity regarding such complaints, said holdings are analogous to the Plaintiff's claim of privity by virtue of his rights as Chief Executive Officer of Iviewit, one of the largest shareholders of Iviewit through exercise of stock options, and as an intended beneficiary of the fortunes of Iviewit.

26. As a direct and proximate result of the actions of the Defendants, Plaintiff has been damaged in a sum estimated to be greater than One Billion Seven Hundred Million Four Hundred and Twenty Five Thousand Dollars (\$1,700,425,000), based on projections as to the value of the Technology and their applications to current and future uses and where such sum is representative of Lamont's interest in Iviewit as awarded by the terms of the Agreement.

27. All conditions precedent to the bringing of this action have occurred or have been waived or excused.

COUNT I – FRUSTRATION OF CONTRACT

28. This is an action for frustration of contract within the jurisdiction of this court.

29. Plaintiff re-alleges and hereby incorporates the allegations of Paragraphs 1 through 27 as if fully set forth herein.

30. Defendants, PROSKAUER, MLG, FOLEY, SB, and BSTZ frustrated the Agreement for Plaintiff, LAMONT, by failing to provide services billed for and, in SB's case, unilaterally canceling the SB agreement with Iviewit without funding of the contracted for \$2,000,000 or providing the legal representation inherent in the SB Agreement.

31. That such action on the part of PROSKAUER, MLG, FOLEY, SB, and BSTZ constitute breaches of the contract by and between Iviewit and PROSKAUER, MLG, FOLEY, SB, and BSTZ.

32. That as a direct and proximate result of such conduct on the part of PROSKAUER, MLG, FOLEY, SB, and BSTZ, LAMONT has been damaged by the

failure of PROSKAUER, MLG, FOLEY, SB, and BSTZ to perform the contracted for legal and other services according their engagement agreements.

33. That by the failure of Defendants to perform their contracted for legal and other services according to their engagement agreements, the value of LAMONT'S equity position in Iviewit by virtue of the Agreement has been reduced, as the assignments to the Technology reside in the Patent Company, rather than Iviewit.

34. That by the failure of Defendants to perform their contracted for legal and other services according to their engagement agreements, the continued pay rolling of LAMONT's base salary from Iviewit by virtue of the Agreement has been eliminated, as the intentional withholding of pertinent information from such patents and not filing same timely and wrongful assignments of the Technology, and in SB's case, failure to perform under the SB Agreement, prevents Iviewit from the attraction of capital to fund Plaintiff's base salary.

WHEREFORE, LAMONT demands judgment for damages against Defendants PROSKAUER, MLG, FOLEY, SB, and BSTZ together with court costs, interest, and such other and further relief as this Court deems just and equitable.

- 6. Upon information and belief, defendant SB is a Pennsylvania limited liability partnership.**
- 7. Upon information and belief, defendant BSTZ is a California limited liability partnership.**
- 8. That beginning on or about August 2001, LAMONT held discussions with Microsoft Corporation, a Delaware corporation based in Redmond, Wash. for a variety of digital entertainment positions.**
- 9. That during such discussions, Microsoft executives stated “the best way for us to start a relationship would be for you to talk to Iviewit, as they have some problems, and once you fix them, come back and we will talk. You can find them through Chuck Brunelas on www.monster.com,” or words to that effect.**
- 10. That LAMONT contacted Chuck Brunelas and Chuck Brunelas notified LAMONT of Iviewit’s ongoing search for a Chief Executive Officer.**

11. That LAMONT held additional discussions with Eliot I. Bernstein (“Bernstein”), founder of Iviewit, and David Colter, an Advisory Board Member of Iviewit and then Vice President, Advanced Technology of Warner Bros., a unit of Time Warner Entertainment, L.P.

12. That Iviewit offered the position of Chief Executive Officer and LAMONT accepted same according to an executed employment agreement, as amended, (“Agreement”) a true copy of attached herein as Exhibit A.

13. That according to the Agreement, Iviewit awarded LAMONT a base salary of One Hundred Seventy Five Thousand Dollars (\$175,000) per annum and stock options to purchase ten percent (10%) of the common stock of Iviewit.

14. That Bernstein engaged the services of PROSKAUER to provide legal services to Iviewit, including corporate formation and governance for a single entity and to obtain multiple patents and oversee U.S. and international filings for such technologies including the provisional filings for the technologies (“Technology”), and such other activities as were necessary to protect the intellectual property represented by the Technology.

15. That PROSKAUER, rather than pursuing the corporate formation and governance for a single entity, proceeded to engage in fraud and deceit by the corporate formation of multiple entities in a multi-tiered structure.

16. That PROSKAUER by their formation of multiple entities in a multi-tiered structure, additionally engaged, effectively, in a “shell game” as to which entity and under what structure would hold assignment of the Technology from Bernstein and others.

17. That as part and parcel of their engagement agreement, a true copy attached herein as Exhibit B, Bernstein awarded PROSKAUER a two and one-half percent (2.5%) equity ownership position (“Proskauer Equity”) in, upon information and belief, an initial company by the name of Iviewit, Inc., a Florida corporation.

18. That subsequent to the offer and acceptance of the Proskauer Equity, PROSKAUER proceeded to move the Proskauer Equity into a position, by the formation of a multiplicity of entities, and name changes so as to give the appearance of assignments of the Technology to Iviewit, whereby, factually, the assignments of the Technology reside in a company (“Patent Company”) in which PROSKAUER holds the Proskauer Equity, and rather than Iviewit.

19. That as a result of this “shell game” conducted by PROSKAUER, upon information belief, Iviewit holds no ownership interest in the Patent Company.

20. That such effective engagement by PROSKAUER in fraud, deceit, and “sham” entities, thus constituting a “shell game,” such action frustrates the purpose of the Agreement.

21. That MLG, PROSKAUER, FOLEY, SB, and BSTZ further conspired to deprive Iviewit of its rights to the technologies developed by Bernstein and others, and equally frustrating to Plaintiff’s Agreement, by:

- a. Aiding MLG in filing patents, according to a certain engagement agreement attached as Exhibit C, for Iviewit intellectual property by intentionally withholding pertinent information from such patents and not filing same timely; and**

- b. Failing to list proper inventors of the Technology based on improper legal advice that foreign inventors could not be listed until their immigration status was adjusted, resulting in the failure of the patents to include their rightful and lawful inventors; and,**
- c. Failing to ensure that the patent applications for the Technology, contained all necessary and pertinent information relevant to the technologies and as required by law; and,**
- d. Upon discovery of the "lapses" by MLG, that PROSKAUER referred the patent matters to William J. Dick, upon information and belief a sui juris individual and resident of Hypluxo, Palm Beach County, Florida and who at all various times relevant hereto was of counsel to FOLEY and who provided legal services to Iviewit ("Dick"), according to a certain engagement agreement attached as Exhibit D; and**
- e. Transferring patents using FOLEY so as to name Brian G. Utley, former President & Chief Operating Officer of Iviewit ("Utley") as the sole holder of multiple patents in his individual name and capacity when in fact they were and arose from the technologies developed by Bernstein and others and held by Bernstein and others prior to Utley's employment with Iviewit, and;**
- f. Allowing the infringement of confidentiality agreements of Iviewit and the intellectual property of Bernstein and others by other clients of PROSKAUER; and,**

- g. Influencing BSTZ, according to an engagement agreement attached as Exhibit E, to fail to repair the inventorship issues described in subparagraph b above.**

22. That on July 15, 2003, Bernstein and SB executed an engagement agreement ("SB Agreement"), a true copy of which is attached herein as Exhibit F, that provided for, *interalia*, the prosecution to judgment or settlement of many, if not all, of the claims against PROSKAUER, MLG, FOLEY, and BSTZ described above as well as funding of Iviewit's operations in the approximate sum of Two Million Dollars (\$2,000,000), since unilaterally canceled by SB.

23. That LAMONT is in privity for purposes of bringing this complaint against Defendants, in that the Agreement individually names LAMONT as a party to and beneficiary of the fortunes of Iviewit since disparaged by Defendants.

24. That LAMONT is an intended beneficiary of the fortunes of Iviewit, under the Agreement as the Restatement Second of Contracts recognizes: (i) LAMONT's recognition of Defendant's commencement of performance is appropriate to effectuate the intention of the parties; and (ii) the circumstances of the Agreement indicate that Iviewit intends to give LAMONT the benefit of the fortunes of Iviewit.

25. That under common law as well as decisional law where courts have held that individuals in the position of LAMONT are in privity regarding such complaints, said holdings are analogous to the Plaintiff's claim of privity by virtue of his rights as Chief Executive Officer of Iviewit, one of the largest shareholders of Iviewit through exercise of stock options, and as an intended beneficiary of the fortunes of Iviewit.

26. As a direct and proximate result of the actions of the Defendants, Plaintiff and the shareholders Plaintiff has a fiduciary duty to serve, have been damaged in a sum estimated to be greater than One Billion Seven Hundred Million Four Hundred and Twenty Five Thousand Dollars (\$1,700,425,000), based on projections as to the value of the Technology and their applications to current and future uses and where such sum is representative of Lamont's interest in Iviewit as awarded by the terms of the Agreement.

27. All conditions precedent to the bringing of this action have occurred or have been waived or excused.

COUNT I – FRUSTRATION OF CONTRACT

28. This is an action for frustration of contract within the jurisdiction of this court.

29. Plaintiff re-alleges and hereby incorporates the allegations of Paragraphs 1 through 27 as if fully set forth herein.

30. Defendants, PROSKAUER, MLG, FOLEY, SB, and BSTZ frustrated the Agreement for Plaintiff, LAMONT, and in turn the shareholders Plaintiff has a duty to serve, by failing to provide services billed for and, in SB's case, unilaterally canceling the SB agreement with Iviewit without funding of the contracted for \$2,000,000 or providing the legal representation inherent in the SB Agreement.

31. That such action on the part of PROSKAUER, MLG, FOLEY, SB, and BSTZ constitute breaches of the contract by and between Iviewit and PROSKAUER, MLG, FOLEY, SB, and BSTZ.

32. That as a direct and proximate result of such conduct on the part of PROSKAUER, MLG, FOLEY, SB, and BSTZ, LAMONT, and in turn the

shareholders Plaintiff has a duty to serve, has been damaged by the failure of PROSKAUER, MLG, FOLEY, SB, and BSTZ to perform the contracted for legal and other services according their engagement agreements.

33. That by the failure of Defendants to perform their contracted for legal and other services according to their engagement agreements, the value of LAMONT’S equity position, and the equity of the shareholders he has a duty to serve, in Iviewit by virtue of the Agreement has been reduced, as the assignments to the Technology reside in the Patent Company, rather than Iviewit.

34. That by the failure of Defendants to perform their contracted for legal and other services according to their engagement agreements, the continued pay rolling of LAMONT’s base salary from Iviewit by virtue of the Agreement has been eliminated, as the intentional withholding of pertinent information from such patents and not filing same timely and wrongful assignments of the Technology, and in SB’s case, failure to perform under the SB Agreement, prevents Iviewit from the attraction of capital to fund Plaintiff’s base salary.

WHEREFORE, LAMONT demands judgment, and on behalf of all those shareholders similarly situated, for damages against Defendants PROSKAUER, MLG, FOLEY, SB, and BSTZ together with court costs, interest, and such other and further relief as this Court deems just and equitable.
