Mister Bernstein,

I advised you by phone as follows:

1. I advised you to go to the FBI (they know the case) tot give personal report what has happened in The Netherlands. (Also to anticipate on misunderstanding en translation problems).
2. When a crime is committed in the Netherlands the FBI knows the way to send the case to the authorities to take over the case or to take a part of the case for the American authorities. The FBI can add their research work.
3. In a civil matter you can consult a Dutch lawyer.

Yours faithfully,

I.G. Vonk.
