To all recipients of the prior correspondences,

It appears that files were attached to the prior correspondences that were not part of the intended emails sent to your offices. I have had two calls from members on the list and Marc Garber, Esq. stated that possible viral elements were added to the correspondence. I have attached an adobe file of what was sent as the cover letter and the only other attachments should have been adobe documents transmitted therein. If you were sent any image or video files with such documents they may have viral content. Iviewit has a long history of being hacked and this appears another attempt to interfere with our mail. I apologize for any problems and it would now be helpful if all recipients could please confirm the receipt of each mailing sent to verify the content or contact me directly at 561.417.8980. I will report this event to the Internet Crime Bureau and the federal investigators currently reviewing these matters.

Thank you,

Eliot Bernstein

P.S. This email should have two adobe pdf documents attached, the attached from the original correspondence and a copy of the intended original correspondence.

To all recipients of the prior correspondence, attached is the filing with the USPTO that led to the Commissioner approving suspension of the patent application, where the charges are not only of fraud on Iviewit and its shareholders but against the United States Patent and Trademark Office by the Iviewit patent attorneys. These charges were filed at the bequest of Harry I. Moatz of the USPTO OED by Iviewit and Crossbow Ventures. As we have recently learned the investment of Crossbow Ventures included monies obtained through the federally backed Small Business Administration, who it turns out, is the largest investor in the Iviewit companies and subsequently the most aggrieved party of the crimes committed. Formal charges of such fraud against the SBA are being formulated and the FBI has been notified of this.

Re: Iviewit

Dear Mr. Groody:

I am not sure if the attached suspension letter came from our conversations or not, but if so, thank you. This form of suspension notice is what I am looking for on all of the IP cited in my earlier email. I am sure it is taking a bit longer to get your arms around the matters but I look forward to our conversation to discuss the remaining IP status. We also were wondering if the patent office has begun formal investigations of the charges of fraud on the USPTO as filed in the complaint by Iviewit and it's investor Crossbow Ventures of W. Palm Beach. It is our understanding that where the inventor is wrong from foul play this must be determined by an administrative court, please advise. I have also attached for your review a list of the crimes I have filed with the FBI and other state and International authorities with a summation of the crimes committed and investigations ongoing. Part of the federal codes violated are the patent crimes and this is based on the companies interpretation of such laws.

I was wondering if for the copyright crimes I need to contact those offices or how this all works, or if reporting to the USPTO is same?

With best regards,

Dear Mr. Groody,

Thank you for your time today and attached is a copy of the request for suspensions of all applications of Iviewit, until the investigations into the matters may be completed through the office and OED. If you need further information or submissions, please feel free to call.

Thank you,
Eliot Bernstein

Subject: PRIVATE AND CONFIDENTIAL - Iviewit Patent Application 09 587 026

Dear Mr. Rekstad,

It was a pleasure speaking with you today and as requested I have attached the suspension letter sent to the Commissioner in July for the 09 587 026 application. Please respond with confirmation of receipt of this email and also advise us as to how to respond to the recent office action. We were under the impression that the suspension had already been renewed, although we had not received confirmation in writing from the USPTO.

Thanks,
Eliot
