CEO Lamont Interfaces With President of Microsoft TV
 Category: Web, HTML, Tech

Enrique,

It has been a long, long time and I hope all is well with you and yours. We have watched the Google/On2 technologies deal with interest, and, as a counter, I would like to introduce you and Microsoft to Iviewit Technologies, Inc. where we believe we hold the patent pending rights to the: (i) backbone, enabling technology for the encoding and transmission of video across all networks and viewable on all display devices; and (ii) image overlay systems, the effective inventors of digital zoom. At your leisure, please look at our website (sans all the legal jargon and car images inserted by our passionate founder) and let me know what you think.

As a last word, the patent filings are in need of some repair and continuance, but you can see where we fit in video by the attached slide. Look forward to hearing from you.

Best regards,

P. Stephen Lamont
