

DISABILITY BIGOTRY IN INDY COURTS

Along with millions of other Americans, at least hundreds of thousands of our military troops suffer from Environmental Illnesses that are incurable, life-threatening reactions to unseen toxic exposures from fumes, scented products, pesticides, aerosols, and countless more substances. Dr. Beverly Newman's EI have been denied and mocked for years in Indy courts, with expert medical opinions on her EI stricken from court records in 2017.

www.alkatzoutrage.org

Stand with Dr. Newman, our military troops, and millions suffering from EI. Contact Indiana Supreme Court Justice Loretta Rush, who supports the court that denies Dr. Newman's EI, and VP Mike Pence, who appointed the Chief Justice.

DISABILITY BIGOTRY

IN INDY COURTS

While millions of Americans suffer from incurable, life-threatening Environmental Illnesses, especially our disabled military troops, the Indiana Supreme Court and other Indiana courts permit attorneys to publicly mock and deny the decades-old EI disabilities of Dr. Beverly Newman, documented by numerous photographs and expert medical opinions stricken from court records, as if they do not exist:

"It remains the Newmans' burden of proof as to any claimed disability of Beverly." – Robert W. York, Indianapolis estate attorney, in court filing to Judge James Joven, September 18, 2017, convincing the court to remove two expert medical opinions from the record (plus photos and eyewitness affidavits)

www.alkatzoutrage.org

"[Dr.] Newman says that she's allergic to everything. That she has chemical sensitivities Well, let's talk about then her chemical sensitivities.... She said she's allergic to about

everything. What was she doing in Meijer? You know ... Who is it that's allergic to everything that goes into a Meijer store? She's not allergic to everything." – Atty. Steven A. Johnson, before Judge Osborn, 2016

Public hearing on October 25, 2017, 1:00 PM, Civil 13, T-1442, City County Bldg.

DISABILITY BIGOTRY IN INDY COURTS

Indiana courts permit lawyers to publicly mock and deny for years Environmental Illness disabilities of Dr. Beverly Newman, documented by numerous photographs and expert medical opinions stricken from court records, as if they do not exist: www.alkatzoutrage.org

“Being exposed to chemicals that Ms. Newman would inevitably encounter when traveling would put her health at grave risk and could be life-threatening.”- Dr. McCampbell, MD, EI expert, October 17, 2017

“Newman has frivolously flaunted, before [Judge Louis Rosenberg], the Americans with Disabilities Act Newman’s ‘chemical hypersensitivity’ allegations ... did not impress Judge Ayres.” - Robert A. Zaban, formerly deputy attorney general, 2015

“It remains the Newmans’ burden of proof as to any claimed disability of Beverly.” – Robert W. York, Al Katz estate attorney, to Judge James Joven, September 2017, convincing the court to remove evidence from the record and order Beverly to travel 1,200 miles to the court on:

October 25, 2017, 1:00 PM, Civil 13, T-1442, City County Bldg. - PUBLIC HEARING

“Newman’s medical disabilities ... are known to be life-threatening ... [so she] should not travel from Florida to Indiana.” - Dr. Sugar, MD
