Your statement will be deemed correct unless we receive a written inquiry of a suspected error. See your account documentation for special rules regarding your rights and responsibilities with respect to erroneous electronic fund transfers, including a description of the transfers covered. Availability of Free Credit Balances and Financial Statements

Under the customer protection rules of the SEC [17 CFR §240.15c3-3], we may use funds comprising free credit balances carried for customer accounts here, provided that these funds are payable to customers on demand (i.e., are free of a lien or right of set-off in our favor or on behalf of some third party to whom you have given control). A financial statement of this organization is available for your personal inspection at its offices, or a copy will be mailed to you upon your written request.

Listed Options

Information with respect to commissions and other charges related to the execution of options transactions has been included in confirmations of such transactions previously furnished to you and such information will be made available to you promptly at your request. Promptly advise us of any material change in your investment objectives or financial situation.

Important Information if you are a Margin Customer (not available for certain retirement accounts)

Margin Interest Charges

If you have margin privileges, you may borrow money from us in exchange for pledging assets in your accounts as collateral for any outstanding margin loan. The amount you may borrow is based on the value of the eligible securities in your margin accounts. If a security has eligible shares, the number of shares pledged as collateral will be indicated below the position.

We calculate interest charges on margin loans as follows: (1) multiply the applicable margin interest rate by the daily close of business net settled debit balance, and (2) divide by 360 (days). Margin interest accrues daily throughout the month and is added to your debit balance at month-end. The month-end interest charge is the sum of the daily accrued interest calculations for the month. We add the accrued interest to your debit balance and start a new calculation each time the applicable interest rate changes and at the close of every statement month. For interest rate information, log into your Morgan Stanley account at morganstanley.com/online. Select your account with a Margin agreement and click Interest Rates for more information.

Information regarding Special Memorandum Account

If you have a Margin Account, this is a combined statement of your Margin Account and Special Memorandum Account maintained for you under Section 220.5 of Regulation T issued by the Board of Governors of the Federal Reserve System. The permanent record of the Special Memorandum Account as required by Regulation T is available for your inspection at your request.

Important Information About Auction Rate Securities

For certain Auction Rate Securities there is no or limited liquidity. Therefore, the price(s) for these Auction Rate Securities are indicated by N/A (not available). There can be no assurance that a successful auction will occur or that a secondary market exists or will develop for a particular security.

Structured Investments Risks and Considerations

Structured Investments (Structured Products) are complex products and may be subject to special risks. Investors should consider the concentration risk of owning the related security and their total exposure to any underlying asset. Structured Investments, which may appear in various statement product categories and are identified on the Position Description Details line as "Asset Class: Struct Inv," may not perform in a manner consistent with the statement product category where they appear and therefore may not satisfy portfolio asset allocation needs for that category. For information on the risks and conflicts of interest related to Structured Investments generally, log in to Morgan Stanley Online and go to

www.morganstanley.com/structuredproductsrisksandconflicts.

Security Measures

This statement features several embedded security elements to safeguard its authenticity. One is a unique blue security rectangle, printed in heat-sensitive ink on the back of every page. When exposed to warmth, the color will disappear, and then reappear.

SIPC Protection

We are a member of Securities Investor Protection Corporation (SIPC), which protects securities of its customers up to \$500,000 (including \$250,000 for claims for cash). An explanatory brochure is available upon request or at www.sipc.org. Losses due to market fluctuation are not protected by SIPC and assets not held with us may not be covered by SIPC protection. To obtain information about SIPC, including an explanatory SIPC brochure, contact SIPC at 1-202-371-8300 or visit www.sipc.org.

Transaction Dates and Conditions

Upon written request, we will furnish the date and time of a transaction and the name of the other party to a transaction. We and/or our affiliates may accept benefits that constitute payment for order flow. Details regarding these benefits and the source and amount of any other remuneration received or to be received by us in connection with any transaction will be furnished upon written request.

Equity Research Ratings Definitions and Global Investment Manager Analysts Status

Some equity securities may have research ratings from Morgan Stanley & Co. LLC or Morningstar, Inc. Research ratings are the research providers' opinions and not representations or guarantees of performance. For more information about each research provider's rating system, see the Research Ratings on your most recent June or December statement (or your first statement if you have not received a statement for those months), go to www.morganstanley.com/online or refer to the research provider's research report. Research reports contain more complete information concerning the analyst's views and you should read the entire research report and not infer its contents from the rating alone. If your account contains an advisory component or is an advisory account, a GIMA status will apply.

Credit Ratings from Moody's Investors Service and Standard & Poor's The credit rating from Moody's Investors Service and Standard & Poor's may be shown for certain securities. All credit ratings represent the opinions of the provider and are not representations or guarantees of performance. Please contact us if you need further information or assistance in interpreting these credit ratings.

HOLDINGS

This section reflects positions purchased/sold on a trade date basis. "Market Value" and "Unrealized Gain/(Loss)" may not reflect the value that could be obtained in the market. Fixed income securities are sorted by maturity or pre-refunding date, and alphabetically within date. Estimated Annual Income a) is calculated on a pre-tax basis, b) does not include any reduction for applicable non-US withholding taxes, c) may include return of principal or capital gains which could overstate such estimates, and d) for securities that have a defined maturity date within the next 12 months, is reflected only through maturity date. Actual income or yield may be lower or higher than the estimates. Current yield reflects the income generated by an investment, and does not reflect changes in its price. Structured Investments, identified on the Position Description Details line as "Asset Class: Struct Inv," may appear in various statement product categories. When displayed, the accrued interest, annual income and current yield for those with a contingent income feature (e.g., Range Accrual Notes or Contingent Income Notes) are estimates and assume specified accrual conditions are met during the relevant period and payment in full of all contingent interest. For Floating Rate Securities, the accrued interest, annual income and current yield are estimates based on the current floating coupon rate and may not reflect historic rates within the accrual period.

CASH, BANK DEPOSIT PROGRAM AND MONEY MARKET FUNDS

Cash, Bank Deposit Program, and Money Market Funds are generally displayed on a settlement date basis. You have the right to instruct us to liquidate your bank deposit balance(s) or shares of any money market fund balance(s) at any time and have the proceeds of such liquidation remitted to you. Estimated Annual Income, Accrued Interest, and APY% will only be displayed for fully settled positions.

HOLDINGS

This section reflects positions purchased/sold on a trade date basis. "Market Value" and "Unrealized Gain/(Loss)" may not reflect the value that could be obtained in the market. Fixed income securities are sorted by maturity or pre-funding date, and alphabetically within date. Estimated Annual Income a) is calculated on a pre-tax basis, b) does not include any reduction for applicable non-US withholding taxes, c) may include return of principal or capital gains which could overstate such estimates, and d) for securities that have a defined maturity date within the next 12 months, is reflected only through maturity date. Actual income or yield may be lower or higher than the estimates. Current yield reflects the income generated by an investment, and does not reflect changes in its price. Structured investments, identified on the Position Description Details line as "Asset Class: Struct Inv," may appear in various statement product categories. When displayed, the accrued interest, annual income and current yield for those with a contingent income feature (e.g., Range Accrual Notes or Contingent Income Notes) are estimates and assume specified accrual conditions are met during the relevant period and payment in full of all contingent interest. For Floating Rate Securities, the accrued interest, annual income and current yield are estimates based on the current floating coupon rate and may not reflect historic rates within the accrual period.

CASH, BANK DEPOSIT PROGRAM AND MONEY MARKET FUNDS

Cash, Bank Deposit Program, and Money Market Funds are generally displayed on a settlement date basis. You have the right to instruct us to liquidate your bank deposit balance(s) or shares of any money market fund balance(s) at any time and have the proceeds of such liquidation remitted to you. Estimated Annual Income, Accrued Interest, and APY% will only be displayed for fully settled positions.

Statements and Limiting Conditions

Purpose

The purpose of this report is to describe and document the quality of the jewelry listed and to estimate the **Fair Market Value**.

Intended Use

The intended use of this report is for providing an estate appraisal listing the Fair Market Value for use in the resolution of **The Estate of Simon Bernstein**.

Valuation Date: January 15, 2016

Definition of Fair Market Value

The fair market value is the price at which the property would change hands between a willing buyer and a willing seller, neither being under any compulsion to buy or sell and both having reasonable knowledge of relevant facts. The fair market value of a particular item of property is not to be determined by a forced sale price. Nor is the fair market value of an item of property to be determined by the sale price of the item in a market other than that in which such item is most commonly sold to the public, taking into account location of the item wherever appropriate. Taken from Treasury Regulation 20.2031-1 (b)

Approach to Value

There are three traditional approaches to value that are as follows:

Income approach: Applies to income producing properties and is used only if an income situation or rental property can be identified.

Market Data approach: Compares the qualities of the subject item to an article with similar or identical qualities, and researches and records current verifiable sales of such merchandise.

Cost approach: Establishes the total value of an item by considering the value of its component parts (precious metal content, gemstone weights and qualities, labor, and any other fees) together with the appropriate retail markup according to the norms of the jewelers in the locale, supply and demand, and the current state of the marketplace.

Fair Market Value is estimated using the market data approach. Neither the income approach nor the cost approach applies in establishing Fair Market Value. However, the cost approach to value was used to check on the market values found.

Market

To value an item a market (and market level) must be recognized. The most appropriate market for jewelry can vary depending upon the article's age, condition, quality, intrinsic content, aesthetic appeal, provenance, current fashion trends, artistic interpretation, and period of manufacture among others.

The type of retail outlet that most commonly carries the items being appraised is considered to be the most appropriate market. However, the auction market was also considered as another appropriate market in establishing Fair Market Value for this type of jewelry.

Limiting Conditions

The jewelry described within has been analyzed and graded in accordance with prescribed grading standards using "state of the art" methods and precision laboratory equipment.

Jewelry constructed solely of, or in combination with, precious metals (i.e. platinum, palladium, yellow or white gold and/or silver) is tested, analyzed and described for its type and content of such metal. Unless otherwise stated, all gemstone weights, grades and measurements are approximate and stones have not been removed from their mountings.

Diamonds are graded with the prescribed grading nomenclature of the Gemological Institute of America (GIA).

Colored stones are color graded with the use of the GIA Gem Set color grading system. Unless otherwise stated, all colored stones listed on this appraisal report have probably been subjected to various treatments to improve their appearance. Treatments are considered usual and customary practices when properly disclosed and when done without intent to defraud the consumer. The treatments are mostly stable and do not require special care. When a treatment is detected and considered unusual it will be so noted by this appraiser. Some treatments are reversible and re-treatable. It may be beyond the scope of an appraisal to determine exact treatment methods or the amount of treatment present. Some treatments require sophisticated equipment not found in a standard gemological laboratory. Prevailing market values are based on these universally practiced and accepted processes by the gems and jewelry trade.

Stones which are not described in detail have no significant value.

Sources are assumed to be reliable and the appraiser does not assume responsibility for their information.

The appraiser assumes the ownership of the subject property is true as stated by the client.

The fees paid for this appraisal do not include the services of the appraiser for any other matter. In particular, fees paid to date do not include any of the appraiser's time or services in connection with any statement, testimony or other matters before an insurance company, its agents, employees or any court or other body in connection with the property herein described.

If the appraiser is required to testify or to make any statements to a third party concerning the described property and/or appraisal, the applicant shall pay the appraiser for all of such time and services so rendered.

This document is limited to its stated intended use and is invalid if all items listed in the Table of Contents are not present.

Unless expressly stated, the items appraised are in good condition. Any serious deficiencies and repairs are noted. Ordinary wear and tear is not noted.

The information in this report is confidential.

This appraisal process does not discover liens, encumbrances, or fractional interests but, if known, they are noted.

The limited owner of this appraisal is the party for whom the work was performed.

Possession of this report does not provide title to the items appraised.

Possession of this report, any portion of this report, or any copy thereof, does not include the right of publication without the appraiser's written consent.

Each item described in this report has been photographed and file copies of the photograph(s) as well as a copy of the report are maintained in the appraiser's files for at least five years after the report date.

Third parties may rely on the information in this report for the defined purpose and intended use only. Third parties requiring further information than what is in the report must obtain the written permission of the owner of the appraisal before the appraiser will discuss the report.

No changes may be made to this report by anyone other than the appraiser. The appraiser cannot be responsible for unauthorized alterations.

The professional relationship between the appraiser and the client ends with the delivery of this report or at the conclusion of the settlement.
